- (a) Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Returns would have been lower had Gabelli Funds, LLC (the “Adviser”) not reimbursed certain expenses of the Fund. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The Bank of America Merrill Lynch U.S. Convertibles Index is a market value weighted index of all dollar denominated convertible securities that are exchangeable into U.S. equities and have a market value of more than \$50 million. The Bloomberg Barclays Balanced U.S. Convertibles Index is a market value weighted index that tracks the performance of publicly placed, dollar denominated convertible securities that are between 40% and 80% sensitive to movements in their underlying common stocks. The S&P 500 Index is an unmanaged indicator of stock market performance. Dividends and interest income are considered reinvested. You cannot invest directly in an index.
- (b) The Fund’s fiscal year ends on September 30.
- (c) Total returns and average annual returns reflect changes in the NAV per share, reinvestment of distributions at NAV on the ex-dividend date for the period beginning November 2015, and are net of expenses. Total returns and average annual returns were not adjusted for the 2004 rights offering. For the period from December 2008 through October 2015, the distributions were reinvested on the payable date using market prices. From inception through November 2008, distributions were reinvested on the payable date using NAV. Since inception return is based on an initial NAV of \$9.30.
- (d) Total returns and average annual returns reflect changes in closing market values on the NYSE American and reinvestment of distributions. Total returns and average annual returns were not adjusted for the 2004 rights offering. Since inception return is based on an initial offering price of \$10.00.
- (e) The Bank of America Merrill Lynch U.S. Convertibles Index inception date is December 31, 1994.
- (f) The Bloomberg Barclays Balanced U.S. Convertibles Index inception date is January 1, 2003.

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements

1. Organization. Ellsworth Growth and Income Fund Ltd. currently operates as a diversified closed-end management investment company organized as a Delaware statutory trust and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”). Investment operations commenced in July 1986.

The Fund’s primary investment objective is to provide income and the potential for capital appreciation, which objectives the Fund considers to be relatively equal over the long term due to the nature of the securities in which it invests. The Fund invests primarily in convertible and equity securities.

2. Significant Accounting Policies. As an investment company, the Fund follows the investment company accounting and reporting guidance, which is part of U.S. generally accepted accounting principles (“GAAP”) that may require the use of management estimates and assumptions in the preparation of its financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market’s official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the “Board”) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the “Adviser”).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt obligations for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price, unless the Board determines such amount does not reflect the securities’ fair value, in which case these securities will be fair valued as determined by the Board. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

Ellsworth Growth and Income Fund Ltd. Notes to Financial Statements (Continued)

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities by inputs used to value the Fund's investments as of September 30, 2017 is as follows:

(a) Please refer to the Schedule of Investments ("SOI") for the industry classifications of these portfolio holdings.

During the fiscal year ended September 30, 2017, the Fund had transfers from Level 1 to Level 2 of \$3,229,875 or 2.61% of net assets as of September 30, 2016. Transfers from Level 1 to Level 2 are due to a decrease in market activity, e.g. frequency of trades, which resulted in a decrease in available market inputs to determine the price. The Fund's policy is to recognize transfers among levels as of the beginning of the period.

Additional Information to Evaluate Qualitative Information.

General. The Fund uses recognized industry pricing services – approved by the Board and unaffiliated with the Adviser – to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities.

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements (Continued)

The data within these feeds are ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common or preferred equities, warrants, options, rights, or fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. When fair valuing a security, factors to consider include recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These may include backtesting the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Investments in Other Investment Companies. The Fund may invest, from time to time, in shares of other investment companies (or entities that would be considered investment companies but are excluded from the definition pursuant to certain exceptions under the 1940 Act) (the "Acquired Funds") in accordance with the 1940 Act and related rules. Shareholders in the Fund would bear the pro rata portion of the periodic expenses of the Acquired Funds in addition to the Fund's expenses. For the year ended September 30, 2017, the Fund's pro rata portion of the periodic expenses charged by the Acquired Funds was 0.07%.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements (Continued)

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund may invest up to 15% of its net assets in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Board will monitor their liquidity. For the restricted securities as of September 30, 2017, please refer to the Schedule of Investments.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends. For certain securities known as “contingent payment debt instruments,” Federal tax regulations require the Fund to record non-cash, “contingent” interest income in addition to interest income actually received. For the year ended September 30, 2017, the Fund held no contingent interest income.

Custodian Fee Credits. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as “Custodian fee credits.”

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. Permanent differences were primarily due to reclassification of convertible bond premiums at disposition. These reclassifications have no impact on the NAV of the Fund. For the year ended September 30, 2017, reclassifications were made to decrease distributions in excess of net investment income by \$465,889 and decrease accumulated net realized gain on investments by \$465,889.

The Fund declares and pays quarterly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the year. Distributions during the

Ellsworth Growth and Income Fund Ltd. Notes to Financial Statements (Continued)

year may be made in excess of required distributions. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. This may restrict the Fund's ability to pass through to shareholders all of its net realized long term capital gains as a Capital Gain Dividend and may cause such gains to be treated as ordinary income, subject to the maximum federal income tax rate. Distributions sourced from paid-in capital should not be considered as dividend yield or the total return from an investment in the Fund. The Board will continue to monitor the Fund's distribution level, taking into consideration the Fund's NAV and the financial market environment. The Fund's distribution policy is subject to modification by the Board at any time.

Distributions to 5.250% Series A Preferred Shares are recorded on a daily basis and are determined as described in Note 5.

The tax character of distributions paid during the years ended September 30, 2017 and 2016 was as follows:

	<u>Year Ended</u> <u>September 30, 2017</u>		<u>Year Ended</u> <u>September 30, 2016</u>
	<u>Common</u>	<u>Preferred</u>	<u>Common</u>
Distributions paid from:			
Ordinary income (inclusive of short term capital gains)	\$3,044,635	\$30,563	\$ 3,453,936
Net long term capital gains	<u>2,621,170</u>	<u>26,312</u>	<u>6,831,564</u>
Total distributions paid	<u>\$5,665,805</u>	<u>\$56,875</u>	<u>\$10,285,500</u>

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of September 30, 2017, the components of accumulated earnings on a tax basis were as follows:

Net unrealized appreciation on investments and foreign currency translations	\$18,303,143
Undistributed long term capital gains	1,328,753
Current year dividends payable	<u>(56,875)</u>
Total	<u>\$19,575,021</u>

At September 30, 2017, the temporary differences between book basis and tax basis net unrealized appreciation on investments were primarily due to deferral of losses from wash sales for tax purposes and amortization of bond premium.

The following summarizes the tax cost of investments and the related net unrealized appreciation at September 30, 2017:

	<u>Cost</u>	<u>Gross</u> <u>Unrealized</u> <u>Appreciation</u>	<u>Gross</u> <u>Unrealized</u> <u>Depreciation</u>	<u>Net</u> <u>Unrealized</u> <u>Appreciation</u>
Investments	\$142,649,591	\$24,091,924	\$(5,788,781)	\$18,303,143

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements (Continued)

tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the year ended September 30, 2017, the Fund did not incur any income tax, interest, or penalties. As of September 30, 2017, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. The Fund's federal and state tax returns for the prior three fiscal years remain open, subject to examination. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Agreements and Other Transactions. The Fund has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Fund will pay the Adviser a fee, computed daily and paid monthly, equal on an annual basis to 0.80% of the first \$100,000,000 of the Fund's average weekly net assets including the liquidation value of preferred stock and 0.55% of the Fund's average weekly net assets including the liquidation value of preferred stock in excess of \$100,000,000. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

During the year ended September 30, 2017, the Fund paid \$550 in brokerage commissions on security trades to G.research, LLC, Inc., an affiliate of the Adviser.

During the year ended September 30, 2017, the Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. The amount of such expenses paid through this directed brokerage arrangement during this period was \$1,852.

Through October 31, 2017, the Adviser has contractually agreed to waive fees or reimburse expenses of the Fund to the extent the total expenses of the Fund (excluding brokers costs, interest, taxes, acquired fund fees and expenses, expenses chargeable to capital, and extraordinary expenses) exceed 1.10% of the weekly average net assets of the Fund. During the year ended September 30, 2017, the Adviser neither waived fees nor reimbursed expenses to the Fund.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. During the year ended September 30, 2017, the Fund paid or accrued \$45,000 to the Adviser in connection with the cost of computing the Fund's NAV.

The Fund pays each Trustee who is not considered an affiliated person an annual retainer of \$8,500 plus \$1,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$500 per meeting attended. The Lead Independent Trustee receives an annual fee of \$1,000 and the Audit and Nominating Committee Chairman each receives an annual fee of \$2,000. A Trustee may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the year ended September 30, 2017, other than short term securities and U.S. Government obligations, aggregated \$54,067,613 and \$41,001,254, respectively.

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements (Continued)

5. Capital. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.01). The Board has authorized the repurchase of its shares in the open market when the shares are trading at a discount of 10.0% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the year ended September 30, 2017, the Fund repurchased and retired 121,457 shares in the open market at an investment of \$1,005,727 and an average discount of approximately 13.95% from its NAV. During the year ended September 30, 2016, the Fund repurchased and retired 223,600 shares in the open market at an investment of \$1,797,002 and an average discount of approximately 14.10% from its NAV.

Transactions in common shares of beneficial interest for the years ended September 30, 2017 and 2016 were as follows:

	Year Ended September 30, 2017		Year Ended September 30, 2016	
	Shares	Amount	Shares	Amount
Net increase in net assets from common shares issued upon reinvestment of distributions	80,356	\$ 646,865	335,236	\$ 2,611,488
Net decrease from repurchase of common shares (includes transaction costs)	<u>(121,457)</u>	<u>(1,005,727)</u>	<u>(223,600)</u>	<u>(1,797,002)</u>
Net increase/(decrease) from transactions in Fund shares	<u>(41,101)</u>	<u>\$ (358,862)</u>	<u>111,636</u>	<u>\$ 814,486</u>

The Fund has an effective shelf registration authorizing the offering of an additional \$100 million of common or preferred shares. As of September 30, 2017, after considering the Series A offering, the Fund has \$70 million available for issuance under the current shelf registration

On September 18, 2017, the Fund issued 1,200,000 shares of 5.250% Series A Cumulative Preferred Shares ("Series A Preferred"), receiving \$28,895,000, after the deduction of estimated offering expenses and underwriting fees of \$1,105,000.

The liquidation value of the Series A Preferred is \$25 per share. The Series A Preferred has an annual dividend rate of 5.250%. The Series A Preferred is noncallable before September 18, 2022. At September 30, 2017, 1,200,000 shares of Series A Preferred were outstanding and accrued dividends amounted to \$56,875.

The Fund's Declaration of Trust, as amended, authorizes the issuance of an unlimited number of Series A Preferred, par value \$0.01. The Series A Preferred are senior to the common shares and result in the financial leveraging of the common shares. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on the Series A Preferred are cumulative. The Fund is required by the 1940 Act and by the Statement of Preferences to meet certain asset coverage tests with respect to the Series A Preferred. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series A Preferred at the redemption price of \$25 per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed rate, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

Ellsworth Growth and Income Fund Ltd.

Notes to Financial Statements (Continued)

The holders of Series A Preferred generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common shares as a single class. The holders of Series A Preferred voting together as a single class also have the right currently to elect two Trustees and under certain circumstances are entitled to elect a majority of the Board of Trustees. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the Series A Preferred, voting as a single class, will be required to approve any plan of reorganization adversely affecting the Series A Preferred, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding Series A Preferred and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Convertible Securities Concentration. It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock.

7. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

8. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

Shareholder Meeting – June 12, 2017 – Final Results

The Fund's Annual Meeting of Shareholders was held on June 12, 2017, at the office of the Fund. At that meeting, common shareholders, voting together as a single class, elected Kinchen C. Bizzell, James P. Conn, Frank J. Fahrenkopf, Jr., and Michael J. Melarkey as Trustees of the Fund. A total of 7,286,949 votes, 7,251,219 votes, 7,206,030 votes, and 7,278,867 votes were cast in favor of these Trustees, respectively. A total of 628,816 votes, 664,546 votes, 709,735 votes, and 636,898 votes were withheld for these Trustees, respectively.

Mario J. Gabelli, Elizabeth C. Bogan, James A. Dinsmore, Daniel D. Harding, Kuni Nakamura, Nicolas W. Platt, and Anthonie C. van Ekris continue to serve in their capacities as Trustees of the Fund.

In addition, the common shareholders, voting together as a single class, approved a revision to the Fund's fundamental investment restriction regarding borrowing money and issuing senior securities. A total of 5,336,568 votes were cast in favor of this proposal, 492,591 votes were cast against the proposal, 206,131 votes abstained, and there were 1,880,473 broker non-votes.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
Ellsworth Growth and Income Fund Ltd.:

We have audited the accompanying statement of assets and liabilities, including the schedule of investments of the Ellsworth Growth and Income Fund as of September 30, 2017, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of September 30, 2017, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Ellsworth Growth and Income Fund as of September 30, 2016, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, presented in conformity with accounting principles generally accepted in the United States of America.

² The Fund's Board of Trustees is divided into three classes, each class having a term of three years. Each year the term of office of one class expires and the successor or successors elected to such class serve for a three year term. The three year term for each class expires as follows:

* — Term expires at the Fund's 2018 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

** — Term expires at the Fund's 2019 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

*** — Term expires at the Fund's 2020 Annual Meeting of Shareholders or until their successors are duly elected and qualified.

Each officer will hold office for an indefinite term until the date he or she resigns or retires or until his or her successor is elected and qualified.

³ The "Fund Complex" or the "Gabelli/GAMCO Fund Complex" includes all the U.S. registered investment companies that are considered part of the same fund complex as the Fund because they have common or affiliated investment advisers.

⁴ This column includes only directorships of companies required to report to the SEC under the Securities Exchange Act of 1934, as amended, i.e., public companies, or other investment companies registered under the 1940 Act.

⁵ "Interested person" of the Fund, as defined in the 1940 Act. Messrs. Gabelli and Dinsmore are each considered to be an "interested person" of the Fund because of their affiliation with the Fund's Adviser.

⁶ Trustees who are not considered to be "interested persons" of the Fund as defined in the 1940 Act are considered to be "Independent" Trustees.

⁷ Mr. van Ekris is an independent director of Gabelli International Ltd., Gabelli Fund LDC, Gama Capital Opportunities Master Ltd., and GAMCO International SICAV, which may be deemed to be controlled by Mario J. Gabelli and/or affiliates and, in that event, would be deemed to be under common control with the Fund's Adviser.

Board Consideration and Re-Approval of Investment Advisory Contract (Unaudited)

At its meeting on August 24, 2017, the Board of Trustees (“Board”) of the Fund approved the continuation of the investment advisory agreement with the Adviser for the Fund on the basis of the recommendation by the trustees who are not “interested persons” of the Fund (the “Independent Board Members”). The following paragraphs summarize the material information and factors considered by the Independent Board Members as well as their conclusions relative to such factors.

Nature, Extent, and Quality of Services.

The Independent Board Members considered information regarding the portfolio managers, the depth of the analyst pool available to the Adviser and the portfolio managers, the scope of administrative, shareholder, and other services supervised or provided by the Adviser and the absence of significant service problems reported to the Board. The Independent Board Members noted the experience, length of service, and reputation of the portfolio managers.

Investment Performance.

The Independent Board Members reviewed the performance of the Fund for the one, three, and five year periods (as of June 30, 2017) against a peer group of 14 convertible funds prepared by the Adviser (“the “Adviser Peer Group”) and against a larger peer group of 20 closed-end funds constituting the Fund’s Lipper category (Closed-End Core, Convertible, and Value Equity Funds) (the “Lipper Peer Group”). The Independent Board Members noted that the Fund’s performance was in the third quartile for the one year period, the first quartile for the three year period, and the second quartile for the five year period for the Adviser Peer Group, and in the third quartile for the one and five year periods, and the second quartile for the three year period for the Lipper Peer Group.

Profitability.

The Independent Board Members reviewed summary data regarding the profitability of the Fund to the Adviser both with an administrative overhead charge and without such a charge and noted the Adviser’s estimated pre-tax operating margin attributable to the Fund in both scenarios.

Economies of Scale.

The Independent Board Members discussed the major elements of the Adviser’s cost structure and the relationship of those elements to potential economies of scale.

Sharing of Economies of Scale.

The Independent Board Members noted that the Fund’s advisory fee contained a reduction for assets in excess of \$100 million, which would indicate a sharing even if economies of scale were not experienced at such a low asset level.

Service and Cost Comparisons.

The Independent Board Members compared the expense ratios of the investment advisory fee, other expenses, and total expenses of the Fund with similar expense ratios of the Adviser Peer Group and the Lipper Peer Group. The Independent Board Members noted that the Adviser’s advisory fee includes substantially all administrative services for the Fund as well as investment advisory services. The Independent Board Members noted that within the Adviser Peer Group, the Fund’s investment advisory fee was slightly above the Adviser Peer Group average, but that its total expense ratio was slightly below the Adviser Peer Group average. The Independent

Ellsworth Growth and Income Fund Ltd..

Board Consideration and Re-Approval of Investment Advisory Contract (Unaudited) (Continued)

Board Members further noted that both the Fund's investment advisory fee and total expense ratio were below the Lipper Peer Group average. The Independent Board Members also noted that the advisory fee structure was different from that in effect for most of the Gabelli funds, in that it contains a reduction for assets in excess of \$100 million and is lower than the management fees in effect for most other Gabelli funds due to the retention of the Fund's historical fee structure when the Adviser assumed the management of the Fund in 2015. The Independent Board Members recognized that the Adviser and its affiliates did not manage other accounts with similar strategies that had fees lower than those charged for the Fund.

Conclusions.

The Independent Board Members concluded that the Fund enjoyed highly experienced portfolio management services and good ancillary services, and that the Fund's performance record had been acceptable. The Independent Board Members concluded that the profitability to the Adviser of managing the Fund was reasonable and that economies of scale were not a significant factor in their thinking at this point. The Independent Board Members did not view the potential profitability of ancillary services as material to their decision. On the basis of the foregoing and without assigning particular weight to any single conclusion, the Independent Board Members determined to recommend continuation of the Advisory Agreement to the full Board.

Based on a consideration of all these factors in their totality, the Board Members, including all of the Independent Board Members, determined that the Fund's advisory fee was fair and reasonable with respect to the quality of services provided and in light of the other factors described above that the Board deemed relevant. Accordingly, the Board Members determined to approve the continuation of the Fund's Advisory Agreement. The Board Members based their decision on evaluations of all these factors as a whole and did not consider any one factor as all important or controlling.

AUTOMATIC DIVIDEND REINVESTMENT AND VOLUNTARY CASH PURCHASE PLANS

Enrollment in the Plan

It is the policy of Ellsworth Growth and Income Fund Ltd. to automatically reinvest dividends payable to common shareholders. As a “registered” shareholder you automatically become a participant in the Fund’s Automatic Dividend Reinvestment Plan (the “Plan”). The Plan authorizes the Fund to credit common shares to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their share certificates to American Stock Transfer (“AST”) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distributions in cash must submit this request in writing to:

Ellsworth Growth and Income Fund Ltd.
c/o American Stock Transfer
6201 15th Avenue
Brooklyn, NY 11219

Shareholders requesting this cash election must include the shareholder’s name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan, may contact AST at (888) 422-3262.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of “street name” and re-registered in your own name. Once registered in your own name your distributions will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in “street name” at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of common shares distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund’s common shares is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued common shares valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund’s common shares. The valuation date is the dividend or distribution payment date or, if that date is not a NYSE Amex trading day, the next trading day. If the net asset value of the common shares at the time of valuation exceeds the market price of the common shares, participants will receive common shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, AST will buy common shares in the open market, or on the NYSE Amex, or elsewhere, for the participants’ accounts, except that AST will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common shares exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to AST for investments in the Fund’s common shares at the then current market price. Shareholders may send an amount from \$100 to \$10,000. AST will use these funds to purchase shares in the open market on or about the 15th of each month. AST will charge each shareholder who participates \$1.25 and a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to American Stock Transfer, 6201 15th Avenue, Brooklyn, NY 11219 such that AST receives such payments approximately 10 days before the investment date. Funds not received at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by AST at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at AST must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Automatic Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by AST on at least 90 days written notice to participants in the Plan.

The Net Asset Value per share appears in the Publicly Traded Funds column, under the heading “Specialized Equity Funds,” in Monday’s The Wall Street Journal. It is also listed in Barron’s Mutual Funds/Closed End Funds section under the heading “Convertible Securities Funds.”

The Net Asset Value per share may be obtained each day by calling (914) 921-5070 or visiting www.gabelli.com.

The NASDAQ symbol for the Net Asset Value is “XECFX.”

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund may from time to time purchase its common shares in the open market when the Fund’s shares are trading at a discount of 10.0% or more from the net asset value of the shares. The Fund may also from time to time purchase its preferred shares in the open market when the preferred shares are trading at a discount to the liquidation value.
