Returns represent past performance and do not guarantee future results. Current performance may be lower or higher than the performance data quoted. Investment return and principal value will fluctuate so, upon redemption, shares may be worth more or less than their original cost. To obtain the most recent month end performance information and a prospectus, please call 800-GABELLI or visit www.tetonadv.com. Total return and average annual returns are historical and reflect changes in share price, reinvestment of dividends and capital gains and are net of expenses. Teton Advisors is the investment manager for all TETON Westwood Funds.*The inception date of the Fund was October 1, 1991. The Class AAA Shares' net asset values are used to calculate performance for the periods prior to the issuance of Class A Shares on April 6, 1993, Class C Shares on February 13, 2001 and Class I Shares on January 11, 2008. Notwithstanding the limitation of expenses, the actual performance for Class C and Class A Shares would have been lower and Class I Shares higher due to the different expenses associated with those classes of shares. Performance for periods of less than one year is not annualized. Class A Shares (load adjusted) includes the effect of the maximum 4.00% sales charge at the beginning of the period. Class C Shares (load adjusted) includes the effect of the applicable 1% contingent deferred sales charge at the end of the one year period. The S&P 500 Index is an unmanaged indicator of stock market performance and is adjusted for reinvestment of dividends. The Barclays Government/Credit Bond Index is a market value-weighted index that tracks the performance of fixed-rate, publicly placed, dollar denominated obligations. The Fund's composite benchmark, which is comprised of 60% of the S&P 500 Index and 40% of the Barclays Government/Credit Bond Index, is rebalanced to its 60%/40% weightings on a month end basis. The Barclays Government/Credit Bond Index includes interest. For each fund with at least a three year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure the accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees, placing more emphasis on downward variations and rewarding consistent performance). The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rate separately, which may cause slight variations in the distribution percentages.) Morningstar Ratings are for the share classes cited only; other classes may have different performance characteristics and different Morningstar ratings. The fund above offers four classes of shares, each with a different combination of sales charges, ongoing fees and other features. Not FDIC Insured. Not Bank Guaranteed. May Lose Value. For a prospectus, current performance and additional information call 1-800-GABELLI or visit www.tetonadv.com. The Teton Mutual Funds are distributed by G.distributors, LLC., a registered broker-dealer and member of FINRA.
