Fund Overview

This annual shareholder report contains important information about The Gabelli Small Cap Growth Fund (the "Fund") for the period of October 1, 2023 to September 30, 2024. The Fund invests primarily in small cap companies that, through bottom-up fundamental research, the portfolio manager believes are attractively priced relative to their earnings growth potential or private market value. The Fund characterizes small capitalization companies as those companies with a market capitalization of \$3 billion or less at the time of the Fund's initial investment. How did the Fund perform?

During the fiscal year ended September 30, 2024, the Gabelli Small Cap Growth Fund outperformed its broad-based benchmark, the Russell 2000 Index, as well as its comparative benchmarks, the Lipper Small-Cap Core Funds Average and the S&P SmallCap 600 Index. Top contributors to the Fund over the year were focused in the Financials, Industrials, and Consumer Discretionary sectors. Detractors to returns over the fiscal year came primarily from the Health Care and Energy sectors. The environment for small caps was challenged relative to large capitalization companies given investor sensitivity to higher interest rates and concerns of an economic slowdown.

How has the Fund performed over the past 10 years?

The performance chart of the fund class presented reflects a hypothetical \$10,000 investment, assuming the maximum sales charge, compared to a broad-based securities market index and more narrowly based indices reflecting market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses were deducted.
