How did the Fund perform?

For the period ended December 31, 2024, the Gabelli SRI Fund underperformed its broad-based benchmark, the S&P 500 and its comparative benchmark, the MSCI ACWI SRI Index. Like other value portfolios, the Fund did not hold significant positions in the largest technology-driven stocks that have recently dominated the returns of its benchmarks. The Fund's holdings in sectors experiencing competitive disruption, including consumer staples and healthcare, as well as several non-US holdings were the primary detractors from performance.

How has the Fund performed over the past 10 years?

The performance chart of the fund class presented reflects a hypothetical \$10,000 investment, assuming the maximum sales charge, compared to a broad-based securities market index and more narrowly based indices reflecting market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses were deducted.
