

KEELEY Funds

Fund Inception: October 1, 1993

Total Assets: \$476 Million

Investment Objective

The KEELEY Small Cap Value Fund seeks long-term capital appreciation through investments in small capitalization companies that the Adviser believes are undervalued. The Adviser defines small market capitalization as securities within the range of the Russell 2000® Value Index at the time of investment. The market cap range of the index changes daily, and as a result, the capitalization of small cap companies in which the Fund invests will also change.

Philosophy

In the broadest sense of the term, companies undergoing major change are often characterized as “restructuring” situations. These events include emergence from bankruptcy, mergers and acquisitions, and full-scale corporate reorganizations, such as spinning off or divesting a division. In our experience, there are often extremely complex stories behind the moving parts, making information on the companies involved difficult to synthesize in a timely manner. As a result, many investors choose to avoid these stocks altogether—leading to temporary mispricing.

**The Institutional share class commenced operations on December 31, 2007. Performance prior to that date is hypothetical, based on Class A shares adjusted for the difference in expenses. Results are substantially similar because all classes invest in the same portfolio of securities, differing only to the extent the share classes have different expenses. Without load" does not reflect the deduction of the maximum 4.50% sales fee (load), which reduces the performance quoted.

Past performance does not guarantee future results. The performance data quoted represents past performance and current returns may be lower or higher. The investment return and principal will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Process

The adviser applies a fundamental, bottom-up stock selection process. Most of our research is internal, focusing on companies in unique and transformative situations that Wall Street has not identified and capitalized upon. Potential investments generally fall under four major themes:

Ownership Changes

- Spin-Offs
- Divestitures
- De-Mutualizations

Operating Changes

- New Management
- Cost-Cutting
- M&A

Balance Sheet / Capital Restructurings

- Bankruptcy Emergence
- Refinancing
- Shift to "Capital Lite"/ Franchise Model
- Capital Reallocation

Marketplace Shifts

- Regulatory Changes
- Industry Consolidation

We believe our focus on change and restructuring gives us a competitive advantage by enabling us to identify inefficiencies in the marketplace, before other investors

Investment Risks

Smaller and medium-sized company stocks are more volatile and less liquid than larger, more established company securities.

MORNINGSTAR RATING™ as of 3.31.19⁽⁴⁾

Overall rating out of 634 Small Blend Funds

Star ratings are based on risk-adjusted return. The overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10- year Morningstar Rating metrics. (Overall: 1 star out of 634 funds; 3-years: 1 star out of 634 funds; 5-years: 1 star out of 519 funds; 10-years: 1 star out of 382 funds in the Small Blend category).

KEELEY Small Cap Value Fund ratings and performance are based on past performance at net asset value.

(1) Portfolio holdings will change, and should not be considered purchase recommendations. Top holdings do not reflect cash, money markets or options/futures contracts holdings.

(2) The Russell 2000® Value Index is an unmanaged index that measures the performance of the small-cap value segment of the U.S. equity universe and includes those Russell 2000 companies with lower price-to-book ratios and lower forecasted growth values. The Russell 2000® Index is an unmanaged index that measures the performance of the smallest 2,000 companies by market capitalization of the Russell 3000® Index. The Russell 3000® Index is an unmanaged index that measures the performance of the 3,000 largest U.S. companies by market capitalization. These Index figures do not reflect any deduction for fees, expenses, or taxes, and are not available for investment.

(3) The Morningstar Style Box™ reveals a fund's category as determined by Morningstar. For equity funds the vertical axis shows the market capitalization of the stocks owned and the horizontal axis shows investment style (value, blend or growth).

(4) Morningstar data © 2018 Morningstar, Inc.; all rights reserved. Morningstar data contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating which is based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance, placing more emphasis on downward variations and rewarding consistent performance. The effects of sales charges are not reflected in the new star rating methodology. Morningstar has recently revised the methodology for its star ratings, which includes combining exchange-traded funds and open-ended mutual funds into a single population for comparative purposes. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. Ratings are for the Fund's A Share Class; other classes may vary.
