Gabelli Financial Services Opportunities ETF Semiannual Report — June 30, 2024

Macrae Sykes Portfolio Manager BA, Hamilton College MBA, Columbia Business School

To Our Shareholders,

For the six months ended June 30, 2024, the net asset value (NAV) total return of Gabelli Financial Services Opportunities ETF (the Fund) was 16.9% compared with a total return of 10.2% for the Standard & Poor's (S&P) 500 Financials Index. The total return based on the Fund's Market Price was 16.8%. The Fund's NAV per share was \$38.31, while the price of the publicly traded shares closed at \$38.30 on the New York Stock Exchange (NYSE) Arca.

Enclosed are the financial statements, including the schedule of investments, for the Fund's semiannual report as of June 30, 2024.

Summary of Portfolio Holdings (Unaudited)

The following table presents portfolio holdings as a percent of net assets as of June 30, 2024:

GABELLI FINANCIAL SERVICES OPPORTUNITIES ETF

Financial Services	65.4%
Leasing	10.5%
Banking	9.3%
Computer Software and Services	
Closed-End Funds	4.3%
Other Assets and Liabilities (Net)	5.8%
	100.0%

The Fund files a complete schedule of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-PORT. Shareholders may obtain this information at www.gabelli.com or by calling the Fund at 800-GABELLI (800-422-3554). The Fund's Form N-PORT is available on the SEC's website at www.sec.gov and may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330.

Proxy Voting

The Fund files Form N-PX with its complete proxy voting record for the twelve months ended June 30, no later than August 31 of each year. A description of the Fund's proxy voting policies, procedures, and how each Fund voted proxies relating to portfolio securities is available without charge, upon request, by (i) calling 800-GABELLI (800-422-3554); (ii) writing to The Gabelli Funds at One Corporate Center, Rye, NY 10580-1422; or (iii) visiting the SEC's website at www.sec.gov.

† Total return represents aggregate total return of a hypothetical investment at the beginning of the period and sold at the end of the period. Total return for a period of less than one year is not annualized. Based on net asset value per share, adjusted for reinvestment of distributions at net asset value on the ex-dividend dates.

the Based on market price per share. Total return for a period of less than one year is not annualized.

(a) The Fund commenced investment operations on May 10, 2022. The Fund first sold shares on May 9, 2022.

(b) Per share data are calculated using the average shares outstanding method.

(c) Annualized.

1. Organization. The Gabelli ETFs Trust (the Trust) was organized on July 26, 2018 as a Delaware statutory trust and Gabelli Financial Services Opportunities ETF (the Fund) commenced investment operations on May 10, 2022. The Fund is a diversified open-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund is an actively managed ETF, whose investment objective is to provide capital appreciation.

2. Significant Accounting Policies. As an investment company, the Fund follows the investment company accounting and reporting guidance, which is part of U.S. generally accepted accounting principles (GAAP) that may require the use of management estimates and assumptions in the preparation of its financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 quoted prices in active markets for identical securities;
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those

securities. The summary of the Fund's investments in securities by inputs used to value the Fund's investments as of June 30, 2024 is as follows:

	Valuation Inputs			
INVESTMENTS IN SECURITIES:	 Level 1 Quoted Prices		al Market Value at 06/30/24	
ASSETS (Market Value):				
Common Stocks (a)	\$ 13,252,256	\$	13,252,256	
Closed-End Funds	638,282		638,282	
TOTAL INVESTMENTS IN SECURITIES - ASSETS	\$ 13,890,538	\$	13,890,538	

(a) Please refer to the Schedule of Investments for the industry classifications of these portfolio holdings.

There were no Level 2 or Level 3 investments held at June 30, 2024 or December 31, 2023. The Fund's policy is to recognize transfers among levels as of the beginning of the reporting period.

Additional Information to Evaluate Qualitative Information

General. The Fund uses recognized industry pricing services – approved by the Board and unaffiliated with the Adviser to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds are ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common and preferred equities, warrants, options, rights, and fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. When fair valuing a security, factors to consider are recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, and the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These may include back testing the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on an accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Distributions to Shareholders. Distributions to shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by a Fund and timing differences. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

The tax character of distributions paid during the year ended December 31, 2023 was as follows:

Distributions paid from:	
Ordinary income	\$ 446,020
Total distributions paid	\$ 446,020

Provision for Income Taxes. The Fund intends to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of the Fund's net investment company taxable income and net capital gains on an annual basis. Therefore, no provision for federal income taxes is required.

At December 31, 2023, the Fund had net short term capital loss carryforwards of \$29,177 for federal income tax purposes which are available to reduce future required distributions of net capital gains to shareholders. The Fund is permitted to carry capital losses forward for an unlimited period. Capital losses that are carried forward will retain their character as either short term or long term capital losses.

The following summarizes the tax cost on investments and the net unrealized appreciation at June 30, 2024:

		Gross	Gross	Net
		Unrealized	Unrealized	Unrealized
	Cost	Appreciation	Depreciation	Appreciation
Investments	\$ 9,888,580	\$ 4,045,765	\$ (43,807)	\$ 4,001,958

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2024, the Fund did not incur any income tax, interest, or penalties. The Fund's federal and state tax returns will remain open and subject to examination for three years. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to these conclusions are necessary.

3. Investment Advisory Agreement and Other Transactions. Pursuant to an Investment Advisory Agreement with the Trust, the Adviser manages the investment of the Fund's assets. Under the Investment Advisory Agreement, the Fund will pay the Adviser a fee, computed daily and paid monthly, at the annual rate of 0.90% of the value of its average daily net assets and the Adviser is responsible for substantially all expenses of the Fund, except (i) interest and taxes; (ii) brokerage commissions and other expenses connected with the execution of portfolio transactions; (iii) distribution fees; (iv) the advisory fee payable to the Adviser; and (v) litigation expenses and any extraordinary expenses.

The Adviser has contractually agreed to waive its investment advisory fee of 0.90% on the first \$25 million in net assets (the Fee Waiver). The Fee Waiver will continue until at least April 30, 2025, and shall not apply to any brokerage costs, acquired Fund fees and expenses, interest, taxes, and extraordinary expenses that the Fund may incur. This agreement may be terminated only by, or with the consent of, the Fund's Board of Trustees.

During the six months ended June 30, 2024, the Adviser waived expenses in the amount of \$56,639.

For the year ended December 31, 2023	\$ 62,414
For the six months ended June 30, 2024	 56,639
	\$ 119,053

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2024, other than short term securities and U.S. Government obligations, aggregated \$3,477,484 and \$880,945, respectively.

5. Capital Share Transactions. Capital shares are issued and redeemed by the Fund only in aggregations of a specified number of shares or multiples thereof (Creation Units) at NAV, in return for securities, other instruments, and/or cash (the Basket). Except when aggregated in Creation Units, shares of the Fund are not redeemable. Transactions in capital shares for the Fund are disclosed in detail in the Statement of Changes in Net Assets. Purchasers and redeemers of Creation Units are charged a transaction fee to cover the estimated cost to the Fund of processing the purchase or redemption, including costs charged to it by the NSCC (National Securities Clearing Corporation) or DTC (Depository Trust Company), and the estimated transaction costs, e.g., brokerage commissions, bid-ask spread, and market impact trading costs, incurred in converting the Basket to or from the desired portfolio composition. The transaction fee is determined daily and will be limited to amounts approved by the Board and determined by the Adviser to be appropriate to defray the expenses that the Fund incurs in connection with the purchase or redemption. The purpose of transaction fees is to protect the Fund's existing shareholders from the dilutive costs associated with the purchase and redemption of Creation Units. The amount of transaction fees will differ depending on the estimated trading costs for portfolio positions and Basket processing costs and other considerations. Transaction fees may include fixed amounts per creation or redemption transactions, amounts varying with the number of Creation Units purchased or redeemed, and varying amounts based on the time an order is placed. The Fund may impose higher transaction fees when cash is substituted for Basket instruments. Higher transaction fees may apply to purchases and redemptions through the DTC than through the NSCC.

6. Transactions with Affiliates and Other Arrangements. During the period ended June 30, 2024, the Fund paid \$173 in brokerage commissions on security trades to G.research, LLC, an affiliate of the Adviser.

The Fund pays retainer and per meeting fees to Independent Trustees and certain Interested Trustees, plus specified amounts to the Lead Trustee and Audit Committee Chairman. Trustees are also reimbursed for out of

pocket expenses incurred in attending meetings. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Trust.

7. Significant Shareholder. As of June 30, 2024, approximately 56.4% of the Fund was beneficially owned by the Adviser and its affiliates, including managed accounts for which the affiliates of the Adviser have voting control but disclaim pecuniary interest.

8. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

9. Subsequent Events. The Board has approved a change in the Fund's structure from a "non-transparent" or "semi-transparent" exchange-traded fund (ETF), which does not publicly disclose its portfolio holdings on a daily basis, to a "transparent" ETF that will disclose its portfolio holdings daily and operate in reliance on Rule 6c-11 under the Investment Company Act of 1940, as amended, effective on or about August 30, 2024 (the Effective Date"). In connection with this change, the Fund will no longer provide a verified intraday indicative value ("VIIV"), which was intended to provide investors and other market participants with a highly correlated per share value of the Fund's underlying portfolio, while keeping the contents of the Fund's portfolio confidential. In addition, Authorized Participants (APs) transacting in the Fund's shares will no longer engage in creation and redemption activity for the Fund through an AP Representative that has knowledge of the composition of the Fund's portfolio holdings but is restricted from disclosing such composition to the APs. Accordingly, references to the VIIV and the AP Representative in the Fund's Summary Prospectus, Prospectus, and Statement of Additional Information will be removed.

In addition, in connection with the change in the Fund's structure, the Fund will no longer operate in reliance on an exemptive order from the U.S. Securities and Exchange Commission (the Order). The Order permitted the Fund to operate without publicly disclosing its portfolio holdings daily, but limited the types of investments the Fund was permitted to hold to those listed in the Fund's application for the Order, including limiting the Fund's investments to only those that are U.S. exchange-traded instruments as well as cash and cash equivalents. Because the Fund will no longer operate in reliance on the Order, the Board approved corresponding changes to the Fund's Summary Prospectus, Prospectus, and Statement of Additional Information to remove references to the terms, requirements and limitations of the Order, as applicable.

Management has evaluated the impact on the Fund of all other subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.
