SmallCap Equity Fund - Class I	\$111	1.00%

How did the Fund perform?

During the twelve months ended September 30, 2024, the TETON Westwood SmallCap Equity Fund underperformed the Russell 2000 Index. The primary detractors included value-oriented technology holdings, mixed returns for our healthcare names, and a drag from single stock that was acquired at a significant premium following the marking period. Our banks, trading at low valuations, drove strong gains into the advent of a rate-cutting cycle. Also, a data center related name powered our industrials. The Fund remains value-oriented in pursuit of opportunities, preferring companies with downside protection in the form of solid balance sheets or defensible business models.

How has the Fund performed over the past 10 years?

The performance chart reflects a hypothetical \$10,000 investment in the class of shares noted (assuming the maximum sales charge) compared to an appropriate broad-based securities market index and more narrowly based indexes that reflect the market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses, including 12b-1 fees, management fees and other expenses were deducted.
