

KEELEY Small-Mid Cap Value Fund

Class I - KSMIX

Annual Shareholder Report - September 30, 2024

Fund Overview

This Annual shareholder report contains important information about KEELEY Small-Mid Cap Value Fund - Class I (the "Fund") for the period of October 1, 2023 to September 30, 2024. The Fund seeks long-term capital appreciation through investments in equity securities of companies with a small or mid-sized market capitalization. The Adviser currently defines small and mid-cap market capitalization as securities within the range of the Russell 2500 Value® Index at the time of investment. The market cap range of the index changes daily, and as a result, the capitalization of small and mid-cap companies in which the Fund invests will also change. You can find additional information about the Fund at www.tetonadv.com/mutual-fund-performance/. You can also request this information by contacting us at (800) 422-3554.

What were the Fund costs for the last year?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10k Investment	Costs Paid as a % of a \$10k Investment
KEELEY Small-Mid Cap Value Fund - Class I	\$132	1.14%

How did the Fund perform?

Over the last year, the Fund's performance trailed that of its broad-based index, the Russell 3000 Index, because large cap stocks and growth stocks outperformed small cap and value stocks. The Fund outperformed its comparative benchmark, the Russell 2500 Value Index, over the last twelve months. Stock selection drove the outperformance while sector allocation had little impact. The Fund's holdings outperformed in eight of the eleven economic sectors and produced especially good results in the Health Care, Energy, and Financials sectors. They lagged the Russell 2500 Value Index in the Technology, Industrials, and Communications Services sectors.

How has the Fund performed over the past 10 years?

The performance chart reflects a hypothetical \$10,000 investment in the class of shares noted (assuming the maximum sales charge) compared to an appropriate broad-based securities market index and more narrowly based indexes that reflect the market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses, including 12b-1 fees, management fees and other expenses were deducted.
