What were the Fund costs for the last six months?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10k Investment	Costs Paid as a % of a \$10k Investment
SmallCap Equity Fund - Class I	\$48	1.00%

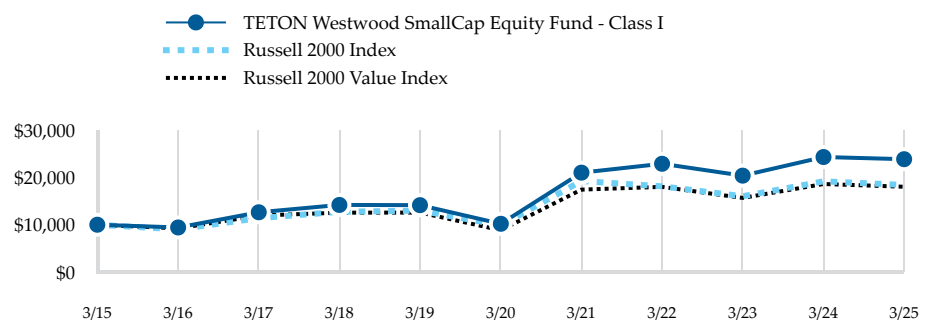

How did the Fund perform?

During the six months ended March 31, 2025, the Teton Westwood Small Cap Equity Fund outperformed the Russell 2000 Index. The largest contributors were our healthcare names (including one holding acquired by a financially-oriented buyer) and industrial holdings with company-specific drivers benefiting margins. Our value-oriented technology holdings continued to be a primary detractor but are approaching trough valuations. The Fund has a history of opportunistically using market dislocations to establish new positions in quality franchises with return potential stretching into subsequent years.

How has the Fund performed over the past 10 years?

The performance chart reflects a hypothetical \$10,000 investment in the class of shares noted (assuming the maximum sales charge) compared to an appropriate broad-based securities market index and more narrowly based indexes that reflect the market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses, including 12b-1 fees, management fees and other expenses were deducted.
