Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► It was determined, subsequent to The Gabelli Utility Trust's December 31, 2024 tax year end, a portion of the Fund's distributions to its common shareholders had exceeded its earnings and profits for the tax year. Accordingly, each of the 12 distributions shareholders received during 2024 is comprised of an earnings distribution and also a return of capital distribution (a non-dividend distribution). A non-dividend distribution is a distribution that is not paid out of the earnings and profits of the fund. It is non-taxable to the shareholder and is considered a return of the shareholder's investment. Shareholders who received these distributions should not include these amounts in taxable income for their respective taxable year. Pursuant to Internal Revenue Code § 1016(a), these amounts are to be a reduction of the applicable share's cost basis upon which these distributions were paid. To determine the reduction in the shareholder's basis, a shareholder should multiply the per share amount for each respective distribution, as reflected in Line 15 below, by the number of shares held at each of the respective ex-dates and subtract that amount from the original purchase price or adjusted cost basis for those specific shares. The adjusted cost basis should be maintained in the shareholder's records until the shareholder disposes of the shares.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► Each shareholder's return of capital portion of the distribution is applied as a reduction to the shareholder's basis in The Gabelli Utility Trust. To the extent the reduction is greater than the shareholder's basis in the Fund, it results in a taxable capital gain. The following amounts represent the per share return of capital for the shareholders.

Distribution Ex-date	Return of Capital Per Common Share	Distribution Ex-date	Return of Capital Per Common Share
01/16/2024	\$ 0.046900000	07/17/2024	\$ 0.046900000
02/13/2024	\$ 0.046900000	08/16/2024	\$ 0.046900000
03/13/2024	\$ 0.046900000	09/16/2024	\$ 0.046900000
04/15/2024	\$ 0.046900000	10/17/2024	\$ 0.046900000
05/15/2024	\$ 0.046900000	11/14/2024	\$ 0.046900000
06/13/2024	\$ 0.046900000	12/13/2024	\$ 0.046900000
Total		\$ 0.562800000	

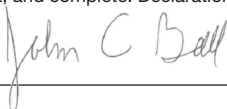

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► The Fund's 12/31/2024 tax year end earnings and profits as calculated based upon the book earnings and adjusted for all applicable tax accounting adjustments (created by GAAP versus tax accounting differences) were less than the Fund's tax year distributions creating a return of capital. Please refer to Lines 14 and 15 above for details relating to the basis adjustment calculation.

The return of capital distribution amount will appear on Form 1099-DIV under Nondividend distributions in box 3 for common shareholders with taxable accounts.
