### How did the Fund perform?

For the six months ended June 30, 2025, the Gabelli SRI Fund outperformed its broad-based and comparative benchmarks, the S&P 500 Index and the MSCI ACWI SRI Index. As the United States appeared to backtrack from imposing the most severe tariffs and the economic outlook improved, cyclically sensitive Industrial and Financial Services stocks drove performance. Conversely, more stable Consumer Staples stocks were a drag on performance.

### How has the Fund performed over the past 10 years?
