(each, a “Fund” and collectively, the “Funds”)

Supplement dated March 31, 2026, to each Fund’s Statutory Prospectus

This supplement amends certain information in each Fund’s statutory prospectus (the “Prospectus”). Unless otherwise indicated, all other information included in each Fund’s Prospectus, or any previous supplements thereto, that is not inconsistent with the information set forth in this supplement, remains unchanged. Capitalized terms not otherwise defined in this supplement have the same meaning as in each Fund’s Prospectus, as applicable.

Under “Purchase of Shares,” the following disclosure is added at the end of the subsection entitled “Additional Purchase Information” of each Fund’s Prospectus:

Wells Fargo Clearing Services, LLC and Wells Fargo Advisors Financial Network, LLC (collectively, “Wells Fargo Advisors”)

Wells Fargo Clearing Services, LLC operates a First Clearing business, but these rules are not intended to include First Clearing firms.

Effective April 1, 2026, Clients of Wells Fargo Advisors purchasing fund shares through Wells Fargo Advisors are eligible for the following sales charge discounts (also referred to as “breakpoints”) and waivers, which can differ from discounts and waivers described elsewhere in the prospectus or statement of additional information (“SAI”). In all instances, it is the investor’s responsibility to inform Wells Fargo Advisors at the time of purchase of any relationship, holdings, or other facts qualifying the investor for discounts or waivers. Wells Fargo Advisors can ask for documentation supporting the qualification.

Wells Fargo Advisors Class A share front-end sales charge waivers information.

Wells Fargo Advisors clients purchasing or converting to Class A shares of the fund in a Wells Fargo Advisors brokerage account are entitled to a waiver of the front-end load in the following circumstances:

- Wells Fargo Advisors employee and employee-related accounts according to Wells Fargo Advisor’s employee account linking rules. Legacy accounts and positions receiving affiliate discounts prior to the effective date will continue to receive discounts. Going forward employees of affiliate businesses will not be offered NAV.
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund.

WellsTrade, the firm’s online self-directed brokerage account, generally offers no-load share classes but there could be instances where a Class A share is offered without a front-end sales charge.

Wells Fargo Advisors Class 529-A share front-end sales charge waivers information.

Wells Fargo Advisors clients purchasing or converting to Class 529-A shares of the fund through Wells Fargo Advisors transactional brokerage accounts are entitled to a waiver of the front-end load in the following circumstances:

- Shares purchased through a rollover from another 529 plan.
- Recontribution(s) of distributed funds are only allowed during the NAV reinstatement period as dictated by the sponsor's specifications outlined by the plan.

Wells Fargo Advisors is not able to apply the NAV Reinstatement privilege for 529 Plan account purchases placed directly at the fund company. Investors wishing to utilize this privilege outside of Wells Fargo systems will need to do so directly with the Plan or a financial intermediary that supports this feature.

Unless specifically described above, other front-end load waivers are not available on mutual fund purchases through Wells Fargo Advisors.

Wells Fargo Advisors Contingent Deferred Sales Charge information.

- Contingent deferred sales charges (CDSC) imposed on fund redemptions will not be rebated based on future purchases.

Wells Fargo Advisors Class A front-end load discounts

Wells Fargo Advisors Clients purchasing Class A shares of the fund through Wells Fargo Advisors brokerage accounts will follow the following aggregation rules for breakpoint discounts:

- Effective April 1, 2026, SEP or SIMPLE IRAs will not be aggregated as a group plan. They will aggregate with the client's personal accounts based on Social Security Number. Previously established SEP and SIMPLE IRAs may still be aggregated as a group plan.
- Effective April 1, 2026, Employer-sponsored retirement plan (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans) accounts will aggregate with other plan accounts under the same Tax ID and will not be aggregated with other retirement plan accounts under a different Tax ID or personal accounts. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, SIMPLE IRAs, SAR-SEPs or Keogh plans.
- Gift of shares will not be considered when determining breakpoint discounts

SHAREHOLDERS SHOULD RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE

SUMMARY OF THE FUND

Investment Objective

The Fund seeks to provide a high level of total return through a combination of capital appreciation and current income.

Fees and Expenses of the Fund:

This table describes the fees and expenses that you may pay if you buy, hold or sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below. You may qualify for sales charge discounts on Class A shares if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of the Gabelli family of mutual funds. More information about these and other discounts is available from your financial intermediary and in the section entitled “Classes of Shares” on page 20 of the prospectus and in Appendix A, “Sales Charge Reductions and Waivers Available through Certain Intermediaries,” attached to the Fund’s prospectus and “Distribution Plans” on page 32 of the Fund’s statement of additional information.

	Class AAA Shares	Class A Shares	Class C Shares	Class I Shares
Shareholder Fees				
(fees paid directly from your investment):				
Maximum Sales Charge (Load) on Purchases (as a percentage of offering price)	None	5.75%	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of redemption or offering price, whichever is lower).	None	None	1.00%	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends (as percentage of amount invested).	None	None	None	None
Redemption Fee (as a percentage of amount redeemed for shares held 7 days or less)	2.00%	2.00%	2.00%	2.00%
Exchange Fee	None	None	None	None
Annual Fund Operating Expenses				
(expenses that you pay each year as a percentage of the value of your investment):				
Management Fees.	1.00%	1.00%	1.00%	1.00%
Distribution and Service (Rule 12b-1) Fees.	0.25%	0.25%	1.00%	None
Other Expenses.	<u>0.07%</u>	<u>0.07%</u>	<u>0.07%</u>	<u>0.07%</u>
Total Annual Fund Operating Expenses	<u>1.32%</u>	<u>1.32%</u>	<u>2.07%</u>	<u>1.07%</u>

Expense Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated, and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$134	\$ 418	\$ 723	\$1,589
Class A Shares	\$702	\$ 969	\$1,256	\$2,072
Class C Shares	\$310	\$ 649	\$1,114	\$2,401
Class I Shares	\$109	\$ 340	\$ 589	\$1,304

You would pay the following expenses if you did not redeem your shares of the Fund:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class AAA Shares	\$134	\$ 418	\$ 723	\$1,589
Class A Shares	\$702	\$ 969	\$1,256	\$2,072
Class C Shares	\$210	\$ 649	\$1,114	\$2,401
Class I Shares	\$109	\$ 340	\$ 589	\$1,304

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in lower total returns when the Fund's shares are held in a taxable account. These costs, which are not reflected in the annual fund operating expenses or in the example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 1% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets in securities of domestic or foreign companies that are involved to a substantial extent in providing products, services or equipment for the generation or distribution of electricity, gas, and water and the provision of infrastructure operations or telecommunications services, such as telephone, telegraph, satellite, cable, microwave, radiotelephone, mobile communication and cellular, paging, electronic mail, videotext, voice communications, data communications, and internet and that derive at least 50% of their revenue or earnings from, or devote at least 50% of their assets to, utilities (each, a "Utility Company" and collectively, "Utility Companies") that the Fund's investment adviser, Gabelli Funds, LLC (the "Adviser"), believes have the potential to provide either capital appreciation or current income. The Adviser emphasizes quality in selecting utility investments, and looks for companies that have proven dividend records and sound financial structures. Generally, Utility Companies generate relatively predictable streams of revenue and income, and in the view of the Adviser, are likely to pay dividends. For additional information about selection of investments suitable for the Fund, see page 9 of the prospectus.

In selecting investments, the Adviser will consider factors such as: (i) the market price of the issuer's common stock, earnings expectations, earnings and price histories, balance sheet characteristics, perceived management skills, and the conditions affecting the industry in which the issuer practices; (ii) the level of interest rates, local and national government regulations, the price and availability of materials used in the particular utility, environmental protection or energy conservation regulations, the level of demand for services, and the risks associated with constructing and operating certain kinds of facilities such as nuclear power facilities; (iii) the potential for capital appreciation of the stock; (iv) the dividend income generated by the stock; (v) the prices of the stock relative to other comparable stocks; and (vi) the diversification of the portfolio of the Fund as to issuers. The Adviser will also consider changes in economic and political outlooks as well as individual corporate developments. The Adviser will sell any Fund investments that lose their perceived value relative to other investments in the judgment of the portfolio management team.

The Fund's assets will be invested primarily in a broad range of readily marketable dividend paying common stocks in the utilities industry. Although many of these common stocks will pay above average dividends, the Fund will buy stock of those companies whose securities have the potential for their prices to increase, providing either capital appreciation or current income for the Fund. The Fund may also invest in master limited partnerships ("MLPs").

The Fund may invest up to 40% of its total assets in securities of non-U.S. issuers, including in emerging markets.

Principal Risks

You may want to invest in the Fund if:

- you are a long term investor
- you seek growth of capital as well as current income
- you wish to include an income strategy as a portion of your overall investments
- you believe that the utilities industry can generate growth of capital

The Fund's share price will fluctuate with changes in the market value of the Fund's portfolio securities. Stocks are subject to market, economic, and business risks that may cause their prices to fluctuate. Holders of common stocks only have rights to the value in the company after all debts have been paid, and they could lose their entire investment in a company that encounters financial difficulty. The Fund is also subject to the following risks: that its portfolio companies will reduce or eliminate the dividend rate on the securities held by the Fund, that no event occurs to surface the value expected by the Adviser, or that regulatory actions adversely affect the Fund's portfolio securities. As a consequence of its policy of concentrating in the utility industry, the Fund's investments may be subject to greater risk and market fluctuation than a fund that has securities representing a broader range of alternatives. Foreign securities are subject to currency, information, and political risks.

An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. When you sell Fund shares, they may be worth less than what you paid for them; you may lose money by investing in the Fund.

The principal risks presented by the Fund are:

- **Equity Risk.** Equity risk is the risk that the prices of the securities held by the Fund will change due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate, and the issuer companies' particular circumstances.
- **Industry Risk.** The Fund's investments in Utility Companies may be more susceptible to various factors, including environmental and other regulatory matters, increases in operating expenses, high interest costs, higher inflation, industry overcapacity, cybersecurity events, damage to infrastructure, property and/or equipment, technological innovation, or reduced demand for services or price volatility.
- **Inflation Risk.** Inflation risk is the risk that the value of assets or income from investments will be worth less in the future as inflation decreases the value of money. As inflation increases, the real value of the Fund's shares and distributions therefore may decline. Inflation may result in losses to Fund shareholders.
- **Foreign Securities Risk.** Investments in foreign securities involve risks relating to political, social, and economic developments abroad, as well as risks resulting from the differences between the regulations to which U.S. and foreign issuers and markets are subject. These risks include expropriation, differing accounting and disclosure standards, currency exchange risks, settlement difficulties, market illiquidity, difficulties enforcing legal rights, and greater transaction costs.
- **Emerging Markets Risk.** The above listed foreign securities risks are more pronounced in the securities of companies located in emerging markets.
- **Interest Rate Risk.** Investments in dividend paying securities and other securities with an income component, including preferred stock and securities convertible into or exchangeable for common or preferred stock, involve interest rate risk. When interest rates decline, the value of such securities generally rises. Conversely, when interest rates rise, the value of such securities generally declines. It is also possible that the issuer of a security will not be able to make dividend, interest and principal payments when due. There is a risk that heightened interest rates may cause the economy to enter a recession. Any such recession would negatively impact the Fund and the investments held by the Fund.
- **Issuer Risk.** The value of a security may decline for a number of reasons that directly relate to an issuer, such as management performance, financial leverage, and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets or factors unrelated to the issuer's value, such as investor perception.
- **Management Risk.** If the portfolio managers are incorrect in their assessment of the growth prospects of the securities the Fund holds, then the value of the Fund's shares may decline.
- **Master Limited Partnerships Risk.** Investments in MLPs subjects the Fund to risks associated with the specific industry or industries in which the MLPs invest. MLPs are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns.
- **Regulatory Risk.** The Fund's investments in Utility Companies may lose value because of changes in the amounts and types of governmental and environmental regulation.

- **Market Risk.** General economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, supply chain disruptions, labor shortages, energy and other resource shortages, changes in laws, trade barriers, currency exchange controls and national and international political circumstances (including governmental responses to public health crises or the spread of infectious diseases), may have long-term negative effects on the U.S. and worldwide financial markets and economy, and thus the Fund.
- **“Return of Capital” Risk.** The Fund’s distributions may represent a non-taxable return of capital. A return of capital distribution is a distribution in excess of current and accumulated earnings and profits. A return of capital distribution is tax-free to the extent of a shareholder’s basis in its Fund shares and reduces the shareholder’s basis to that extent. A distribution consisting of return of capital should not be considered as the dividend yield or total return of an investment. Shareholders who receive the payment of a distribution consisting of a return of capital may be under the impression that they are receiving net profits when they are not.

Performance

The bar chart and table that follow provide an indication of the risks of investing in the Fund by showing changes in the Fund’s performance from year to year, and by showing how the Fund’s average annual returns for one year, five years, and ten years compared with those of a broad based securities market index and with the returns of an index of funds with similar investment objectives. As with all mutual funds, the Fund’s past performance (before and after taxes) does not predict how the Fund will perform in the future. Updated information on the Fund’s results can be obtained by visiting www.gabelli.com.

THE GABELLI UTILITIES FUND
(Total Returns for Class AAA Shares for the Years Ended December 31)

During the calendar years shown in the bar chart, the highest return for a quarter was 13.84% (quarter ended September 30, 2024), and the lowest return for a quarter was (16.79)% (quarter ended March 31, 2021).

Average Annual Total Returns (for the years ended December 31, 2024, with maximum sales charge, if applicable)	Past One Year	Past Five Years	Past Ten Years
The Gabelli Utilities Fund Class AAA Shares			
Return Before Taxes	13.00%	2.54%	4.41%
Return After Taxes on Distributions	10.82%	1.52%	3.44%
Return After Taxes on Distributions and Sale of Fund Shares	9.24%	1.91%	3.36%
Class A Shares			
Return Before Taxes	6.66%	1.35%	3.79%
Class C Shares (first issued on September 1, 2022)			
Return Before Taxes	11.21%	1.78%	3.62%
Class I Shares			
Return Before Taxes	13.25%	2.79%	4.66%
Standard & Poor's ("S&P") 500 Utilities Index (reflects no deduction for fees, expenses, or taxes).	23.43%	6.61%	8.43%
Lipper Utility Fund Average	23.24%	6.73%	7.24%

Returns shown for Class C shares prior to their first issuance date on September 1, 2022 are those of the Fund's Class C1 shares. After the close of business on March 25, 2024 or, with respect to shares held in "street name" through intermediaries having a pre-existing contractual agreement requiring additional time, as soon as practicable thereafter, the Fund converted all Class C1 shares into Class C shares and eliminated the Class C1 shares of the Fund.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown. In some instances, the "Return After Taxes on Distributions and Sale of Fund Shares" may be greater than the "Return After Taxes on Distributions" because the investor is assumed to have sufficient capital gains of the same character from other investments to offset any capital losses from the redemption so that the taxpayer may deduct the capital losses in full. After-tax returns shown are not relevant to investors who hold their Fund shares through tax deferred arrangements, such as 401(k) plans or individual retirement accounts, including Roth IRAs and SEP IRAs (collectively, "IRAs"). After-tax returns are shown only for Class AAA shares and after-tax returns for other classes will vary due to the differences in expenses.

Management

The Adviser. Gabelli Funds, LLC

The Portfolio Managers. Mr. Mario J. Gabelli, CFA, Chief Investment Officer — Value Portfolios of the Adviser, has served as portfolio manager of the Fund since its inception on August 31, 1999. Mr. Timothy M. Winter, CFA, has served as an associate portfolio manager of the Fund since May 2018. Mr. Justin Bergner has served as associate portfolio managers of the Fund since July 1, 2021. Mr. Robert D. Leininger has served as a portfolio manager of the Fund since August 31, 2023. Mr. Ashish Sinha has served as a portfolio manager of the Fund since October 23, 2023.

Purchase and Sale of Fund Shares

The minimum initial investment for Class AAA, Class A, and Class C shares is \$1,000 (\$250 for IRAs or Coverdell Education Savings Plans). There is no minimum initial investment for Class AAA, Class A, and Class C shares in an automatic monthly investment plan. Class I shares are available to investors with a minimum investment of \$50,000 when purchasing the shares directly through G.distributors, LLC, the Fund's distributor ("G.distributors" or the "Distributor"), or investors purchasing Class I shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class I shares, and which have different minimum investment amounts. If you transact in Class I shares through a broker or financial intermediary, you may be required to pay a commission and/or other forms of compensation to the broker or financial intermediary. The Distributor reserves the right to waive or change minimum investment amounts. There is no minimum for subsequent investments.

You can purchase or redeem shares of the Fund on any day the New York Stock Exchange ("NYSE") is open for trading (a "Business Day"). You may purchase or redeem Fund shares by written request via mail (The Gabelli Funds, P.O. Box 219204, Kansas City, MO 64121-9204), personal or overnight delivery (The Gabelli Funds, c/o SS&C Global Investor & Distribution Solutions, Inc., 801 Pennsylvania Avenue, Suite 219204, Kansas City, MO 64105-1307), Internet, bank wire, or Automated Clearing House ("ACH") system. You may also purchase Fund shares by telephone at 800-GABELLI (800-422-3554), if you have an existing account with banking instructions on file.

Fund shares can also be purchased or sold through registered broker-dealers or financial intermediaries that have entered into appropriate selling agreements with the Distributor. The broker-dealer or other financial intermediary will transmit these transaction orders to the Fund on your behalf and send you confirmation of your transactions and periodic account statements showing your investments in the Fund.

Tax Information

The Fund expects that distributions will generally be taxable as ordinary income or long term capital gains, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or an IRA.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of the Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

INVESTMENT OBJECTIVE, INVESTMENT STRATEGIES, AND RELATED RISKS

The Fund's investment objective is to seek to provide a high level of total return through a combination of capital appreciation and current income. The investment objective of the Fund may not be changed without shareholder approval.

Under normal circumstances, the Fund invests at least 80% of its net assets in securities of Utility Companies that the Adviser believes have the potential to provide either capital appreciation or current income (the "80% Investment Policy"). The 80% Investment Policy may be changed by the Board of Trustees (the "Board") without shareholder approval. Shareholders will, however, receive at least sixty days prior notice of any change in this policy. Generally, Utility Companies generate relatively predictable streams of revenue and income, and in the view of the Adviser, are likely to pay dividends. However, the Fund focuses on those companies in this industry whose common stocks may be undervalued and thus have the potential for capital appreciation. The Fund's performance is expected to reflect conditions affecting the utilities industry. This industry is sensitive to factors such as interest rates, local and national government regulations, the price and availability of materials used in the particular utility, environmental protection or energy conservation regulations, the level of demand for services, and the risks associated with constructing and operating certain kinds of facilities, such as nuclear power facilities. These factors may change rapidly. The Adviser emphasizes quality in selecting utility investments, and looks for companies that have proven dividend records and sound financial structures. Believing that the industry is under consolidation due to changes in regulation, the Fund seeks to position itself to take advantage of trends in consolidation.

Undervaluation of the stock of a Utility Company with good intermediate and longer term fundamentals can result from a variety of factors, such as a lack of investor recognition of:

- the underlying value of a company's fixed assets,
- the level of demand for services,
- the underlying value of the companies within the utilities industry,
- beneficial changes in interest rates,
- beneficial changes in the price and availability of fuel,
- the value of a consumer or commercial franchise,
- changes in the economic or financial environment affecting the company,
- new or rapidly expanding markets,
- technological developments or advancements affecting the company or its products,
- changes in local and national governmental regulations, political climate, or competitive conditions, and
- changes in environmental protection or energy conservation regulations.

Actual events that may lead to a significant increase in the value of a company's securities include:

- favorable earnings surprises relative to analysts' expectations,
- a beneficial change in local or national governmental regulations,
- a beneficial change in environmental protection regulations or energy conservation regulations,
- a merger or reorganization or recapitalization of the company,

- a sale of a division of the company,
- a tender offer (an offer to purchase investors' shares),
- the retirement or death of a senior officer or substantial shareholder of the company, and
- a beneficial change in the company's dividend policy.

In selecting investments, the Adviser will consider factors such as: (i) the market price of the issuer's common stock, earnings expectations, earnings and price histories, balance sheet characteristics, perceived management skills, and the conditions affecting the industry in which the issuer practices; (ii) the level of interest rates, local and national government regulations, the price and availability of materials used in the particular utility, environmental protection or energy conservation regulations, the level of demand for services, and the risks associated with constructing and operating certain kinds of facilities such as nuclear power facilities; (iii) the potential for capital appreciation of the stock; (iv) the dividend income generated by the stock; (v) the prices of the stock relative to other comparable stocks; and (vi) the diversification of the portfolio of the Fund as to issuers. The Adviser will also consider changes in economic and political outlooks as well as individual corporate developments. The Adviser will sell any Fund investments that lose their perceived value relative to other investments in the judgment of the portfolio management team.

The Fund's assets will be invested primarily in a broad range of readily marketable dividend-paying common stocks in the utilities industry. Although many of the common stocks will pay above average dividends, the Fund will buy stock of those companies whose securities have the potential for their prices to increase, providing either capital appreciation or current income for the Fund. The value of common stocks will fluctuate due to many factors, including the past and predicted earnings of the issuer, the quality of the issuer's management, general market conditions, the forecasts for the issuer's industry, and the value of the issuer's assets. Holders of common stocks only have rights to the value in the company after all issuer debts have been paid, and they could lose their entire investment in a company that encounters financial difficulty. The Fund may also invest in MLPs.

The Fund's policy of concentration in companies in the utilities industry is a fundamental policy of the Fund. Fundamental policies may not be changed without the authorization of a vote of a majority (as defined in the Investment Company Act of 1940, as amended (the "1940 Act")) of the Fund's outstanding shares.

The Fund may also use the following investment techniques:

- **Defensive Investments.** When adverse market or economic conditions occur, the Fund may temporarily invest all or a portion of its assets in defensive investments. Such investments include high grade debt securities, obligations of the U.S. government and its agencies, and instrumentalities, or high quality, short term money market instruments. When following a defensive strategy, the Fund will be less likely to achieve its investment objective.
- **Foreign Securities.** The Fund may invest up to 40% of its total assets in securities of non-U.S. issuers.

The Fund may also engage in other investment practices in order to achieve its investment objective. These are discussed in the Statement of Additional Information ("SAI"), which may be obtained by calling 800-GABELLI (800-422-3554), your financial intermediary, or free of charge through the Fund's website at www.gabelli.com.

Investing in the Fund involves the following risks:

- **Equity Risk.** Equity risk is the risk that the prices of the securities held by the Fund will change due to general market and economic conditions, perceptions regarding the industries in which the companies issuing the securities participate, and the issuer companies' particular circumstances. These fluctuations may cause a security to be worth less than it was worth when it was purchased by the Fund. Because the value of securities, and thus shares of the Fund, could decline, you could lose money.
- **Industry Risk.** The Fund's investments in Utility Companies may be more susceptible to factors affecting those particular types of companies and may decline in value because of various factors, including increases in operating expenses, high interest costs, higher inflation, industry overcapacity, or reduced demand for services. The Fund may invest in energy companies and energy producers, including pipeline and gas distribution companies. General problems of energy companies include volatile fluctuations in price and supply of energy fuels, international politics, terrorist attacks, wars, international sanctions, trade restrictions, reserve and depletion risk, reduced demand as a result of increases in energy efficiency and energy conservation, the success of exploration projects, cleanup and litigation costs relating to oil spills and environmental damage, and tax and other regulatory policies of various governments. Natural disasters damaging the sources of energy supplies will also impact energy companies. Oil production and refining companies are subject to extensive federal, state and local environmental laws and regulations regarding air emissions and the disposal of hazardous materials. In addition, recent oil prices have been extremely volatile as a result of, among other factors, (i) the spread of infectious diseases, (ii) changes in oil and gas inventories, (iii) global market demand, (iv) geopolitical instability, armed conflict and social unrest, including the invasion of Ukraine by Russia in February 2022, the associated response undertaken by western nations, such as the implementation of broad sanctions, and the potential for retaliatory actions on the part of Russia, (v) potential future disagreements among OPEC+ countries regarding the supply of oil, (vi) the potential for increased production and activity from U.S. shale producers and non-OPEC countries driven by the current oil prices, and therefore, the Fund cannot predict how long oil and gas prices will remain stable or further increase, if at all, or whether they could reverse course and decline, (vii) sabotage to oil and gas company infrastructure, property and equipment, operating systems and other similar incidents. In particular, the invasion of Ukraine by Russia and the ongoing conflict between Israel and Palestine have led to, and will likely continue to lead to, geopolitical disruption and volatility of the markets within which we operate. Volatility in oil prices has caused some producers to curtail production or reduce spending for exploration activities, and it has also caused some energy sector companies to fail due to overleveraging and an extended period of reduced prices may significantly lengthen the time the sector would need to recover after a stabilization of prices. This could increase the time period the Fund would need to see a realization of its investment.
- **Environmental and Other Regulatory Matters.** Utility Companies may be subject to a number of host country statutory and regulatory standards and required approvals relating to energy, labor and environmental laws. Certain permits and regulatory approvals may be required to be obtained for certain investments by Utility Companies and failure by such companies to obtain such permits and regulatory approvals could adversely affect the Fund's investment. Utility

Companies also face considerable costs associated with environmental compliance and safety regulation. Increasingly, regulators are calling upon electric utilities to bear these added costs, and there is a risk that these costs will not be fully recovered through an increase in revenues. Changing weather patterns and natural disasters affect consumer demand for utility services (e.g., electricity, heat and air conditioning), which, in turn, affects utility revenues.

- **Equipment and Supplies.** Utility Companies may face the risk of lengthy delays and increased costs associated with the design, development, construction, licensing and operation of their facilities or sale of their products. Moreover, technological innovations may render existing plants, equipment or products obsolete and impact the competitive strength of Utility Companies.
- **Cybersecurity Risks.** Utility Companies have experienced sabotage to company infrastructure, property and equipment, attempts to breach company operating systems and other similar incidents in the past, which have resulted in shutdowns and/or disruptions in their operations. For example, in May 2021, a U.S. fuel pipeline operator was the target of a ransomware attack, which resulted in the shutdown of a massive oil pipeline system that supplies the eastern United States. In September 2022, several subsea explosions ruptured the Nord Stream I pipeline and one Nord Stream II pipe, causing a substantial disruption in the delivery of natural gases under the Baltic Sea. Several countries, including Sweden, have concluded the explosions were caused by grievous sabotage.

Utility Companies may continue to be subject to attempts to gain unauthorized access to or through their operating systems and physical attacks on industry and company infrastructure, property and equipment. Any physical damage, system failure, cybersecurity breach, ransomware attack, system disruption or other material harm could interrupt or delay operations and impact a Utility Company's ability to manage its operations and report financial performance, which could have a materially adverse effect on existing and future business. These and other developments may adversely impact the value of the Fund's investments in Utility Companies.

- **Water.** In the case of the water utility sector, the industry is highly fragmented, and most water supply companies find themselves in mature markets, although upgrading of fresh water and waste water systems is an expanding business.
- **Gas.** Gas transmission companies and gas distribution companies are also undergoing significant changes. In the United States, interstate transmission companies are regulated by the FERC, which began reducing its regulation of the industry in the 1980's. Many companies have diversified into oil and gas exploration and development, making returns more sensitive to energy prices. In the recent decade, gas utility companies have been adversely affected by disruptions in the oil industry, including related to political conditions in oil producing regions (such as the Middle East), by increased concentration and competition, and by differing approaches to energy policy in the United States, including increased incentives for the exploration and production of alternative energy and climate-related programs, revocation of federal permits for, and public opposition to, natural gas pipelines, such as the cross-border operation permit for the Keystone XL Pipeline and other policy decisions that favor alternative energy sources. The resumption or extension of these policies, or the adoption of similar policies by a future U.S. administration, could adversely affect the financial performance of gas transmission and distribution companies. Prolonged changes in climatic conditions can also have a significant

impact on both the revenues and expenses of a gas utility. Natural gas is the cleanest of the hydrocarbon fuels, and this may result in incremental shifts in fuel consumption toward natural gas and away from oil and coal, even for electricity generation. However, technological or regulatory changes within the industry may delay or prevent this result.

- **Electric.** Certain Utility Companies may own or operate nuclear generating facilities. Governmental authorities may from time to time review existing policies and impose additional requirements governing the licensing, construction and operation of nuclear power plants. In the past, nuclear generating projects in the electric utility industry have experienced substantial cost increases, construction delays and licensing difficulties. These have been caused by various factors, including inflation, high financing costs, required design changes and rework, allegedly faulty construction, objections by groups and governmental officials, limits on the ability to obtain financing, reduced forecasts of energy requirements and economic conditions. This experience indicates that the risk of significant cost increases, delays and licensing difficulties remain present until completion and achievement of commercial operation of any nuclear project. Also, nuclear generating units in service have experienced unplanned outages or extensions of scheduled outages due to equipment problems or new regulatory requirements sometimes followed by a significant delay in obtaining regulatory approval to return to service. A major accident at a nuclear plant anywhere could cause the imposition of limits or prohibitions on the operation, construction or licensing of nuclear units. Prolonged changes in climatic conditions can also have a significant impact on both the revenues of an electric and gas utility as well as its expenses. The construction and operation of nuclear power facilities are subject to strict scrutiny by, and evolving regulations of, the Nuclear Regulatory Commission and state agencies which have comparable jurisdiction. Strict scrutiny might result in higher operating costs and higher capital expenditures, with the risk that the regulators may disallow inclusion of these costs in rate authorizations or the risk that a company may not be permitted to operate or complete construction of a facility. In addition, operators of nuclear power plants may be subject to significant costs for disposal of nuclear fuel and for decommissioning such plants.

The rating agencies look closely at the business profile of utilities. Ratings for companies are expected to be affected to a greater extent in the future by how their asset base is utilized. Electric utility companies that focus more on the generation of electricity may be assigned less favorable ratings as this business is expected to be competitive and the least regulated. On the other hand, companies that focus on transmission and distribution, which is expected to be the least competitive and the more regulated part of the business, may see higher ratings given the greater predictability of cash flow.

- **Telecommunications.** The telecommunications industry today includes both traditional telephone companies with a history of broad market coverage and highly regulated businesses and cable companies, which began as small, lightly regulated businesses focused on limited markets. Today these two historically different businesses are converging in an industry which is trending toward larger, competitive, national and international markets with an emphasis on deregulation. Companies that distribute telephone services and provide access to the telephone networks still comprise the greatest portion of this segment, but non-regulated activities such as cellular telephone services, paging, data processing, equipment retailing, computer software

and hardware services are becoming increasingly significant components as well. The presence of unregulated companies in this industry and the entry of traditional telephone companies into unregulated or less regulated businesses provide significant investment opportunities with companies which may increase their earnings at faster rates than had been allowed in traditional regulated businesses. Still, increasing competition, technological innovations and other structural changes could adversely affect the profitability of such utilities and the growth rate of their dividends. Given mergers and proposed legislation and enforcement changes, it is likely that both traditional telephone companies and cable companies will continue to provide an expanding range of utility services to residential, corporate and governmental customers.

- **Inflation Risk.** Inflation risk is the risk that the value of assets or income from investments will be worth less in the future as inflation decreases the value of money. As inflation increases, the real value of the Fund's shares and distributions therefore may decline. Inflation rates may change frequently and significantly as a result of various factors, including unexpected shifts in the domestic or global economy and changes in economic policies, and the Fund's investments may not keep pace with inflation, which may result in losses to Fund shareholders.
- **Foreign Securities Risk.** The Fund's investments outside the United States carry additional risks that include:
 - **Currency Risk** — Fluctuations in exchange rates between the U.S. dollar and foreign currencies may negatively affect an investment. Adverse changes in exchange rates may erode or reverse any gains produced by foreign currency denominated investments and may widen any losses. In addition, the Fund's investments could be adversely affected by delays in, or a refusal to grant, repatriation of funds or conversion of emerging market currencies.
 - **Information Risk** — Key information about an issuer, security, or market may be inaccurate or unavailable.
 - **Political Risk** — Foreign governments may expropriate assets, impose capital or currency controls, impose punitive taxes, or nationalize a company or industry. Any of these actions could have a severe effect on security prices and impair the Fund's ability to bring its capital or income back to the United States. Other political risks include policy changes, social and political instability, military action, and war. In particular, the consequences of international conflict, including international sanctions, the potential impact on inflation and increased disruption to supply chains may impact our portfolio companies, result in an economic downturn or recession either globally or locally in the U.S. or other economies, reduce business activity, spawn additional conflicts (whether in the form of traditional military action, reignited "cold" wars or in the form of virtual warfare such as cyberattacks) with similar and perhaps wider ranging impacts and consequences and have an adverse impact on the Fund's returns and net asset value.
 - **Access Risk** — The risk that some countries may restrict the Fund's access to investments or offer terms that are less advantageous than those for local investors. This could limit the attractive investment opportunities available to the Fund.
 - **Liquidity Risk** — Foreign securities are sometimes less liquid than securities of comparably sized U.S. issuers.

- **Emerging Markets Risk** — The above listed foreign securities risks are more pronounced in the securities of companies located in emerging markets. Investments in emerging markets may experience sharp price swings, as there may be less government supervision and regulation of business in such markets, and may entail risks relating to political and economic instability and expropriation, nationalization, confiscation or the imposition of restrictions on foreign investment, lack of hedging instruments, and restrictions on repatriation of capital invested. Securities markets in emerging markets may be less liquid and developed than those in the United States, potentially making prices erratic. Economic or political crises may detrimentally affect investments in emerging markets. Emerging market countries may experience substantial rates of inflation or deflation. The economies of developing countries tend to be dependent upon international trade. There may be little financial information available about emerging market issuers, and it may be difficult to obtain or enforce a judgment against them. Other risks include a high concentration of investors, financial intermediaries, and market capitalization and trading volume in a small number of issuers and industries; vulnerability to changes in commodity prices due to overdependence on exports, including gold and natural resources, overburdened infrastructure and obsolete or unseasoned financial systems; environmental problems; less developed legal systems; and less reliable securities custodial services and settlement practices. For all of these reasons, investments in emerging markets may be considered speculative.
- **Eurozone Investment Risks** — A number of countries in the European Union (the “EU”) have experienced, and may continue to experience, severe economic and financial difficulties, increasing the risk of investing in the European markets. In particular, many EU nations are susceptible to economic risks associated with high levels of debt, notably due to investments in sovereign debt of countries such as Greece, Italy, Spain, Portugal, and Ireland. As a result, financial markets in the EU have been subject to increased volatility and declines in asset values and liquidity. Responses to these financial problems by European governments, central banks and others, including austerity measures and reforms, may not work, may result in social unrest, and may limit future growth and economic recovery or have other unintended consequences.

The United Kingdom ceased to be a member of the European Union (the “EU”) on January 31, 2020 (“Brexit”). A Trade and Cooperation Agreement between the EU and the United Kingdom (the “TCA”) took effect on May 1, 2021, and now governs the relationship between the EU and the United Kingdom. While the TCA regulates a number of important areas, significant parts of the United Kingdom economy are not addressed in detail by the TCA, including in particular the services sector, which represents the largest component of the United Kingdom’s economy. As such, there remains uncertainty as to the scope, nature and terms of the relationship between the United Kingdom and the EU and the effect and implications of the TCA. Brexit may have a negative impact on the economy and currency of the United Kingdom and EU as a result of anticipated, perceived or actual changes to the United Kingdom’s economic and political relations with the EU. Brexit may also have a destabilizing impact on the EU to the extent other member states similarly seek to withdraw from the union. Any further exits of member states from the EU, or the possibility of such exits, would likely cause additional market disruption

globally and introduce new legal and regulatory uncertainties. Any or all of these challenges may affect the value of a Fund's investments that are economically tied to the United Kingdom or the EU, and could have an adverse impact on a Fund's performance.

- **Globalization Risks** — The growing inter-relationship of global economies and financial markets has increased the effect of conditions in one country or region on issuers of securities in a different country or region. In particular, events or developments that interrupt the global supply chain, such as pandemic risks relating to the spread of infectious diseases, the adoption or prolongation of protectionist trade policies by one or more countries, war, changes in economic or monetary policy in the US or abroad, or a slowdown in the US economy, could lead to a decrease in demand for products and reduced flows of capital and income to companies in other countries. Those events might particularly affect companies in emerging countries. The current political climate has intensified concerns about potential trade wars between the United States and various other nations, as the current U.S. administration has imposed increased tariffs on several trading partners with additional measures also under discussion.
- **Interest Rate Risk.** Investments in dividend paying securities involve interest rate risk. When interest rates decline, the value of such securities generally rises. Conversely, when interest rates rise, the value of such securities generally declines. There is a risk that heightened interest rates may cause the economy to enter a recession. Any such recession would negatively impact the Fund and the investments held by the Fund.
- **Issuer Risk.** The value of a security may decline for a number of reasons that directly relate to an issuer, such as management performance, financial leverage, and reduced demand for the issuer's goods or services, as well as the historical and prospective earnings of the issuer and the value of its assets or factors unrelated to the issuer's value, such as investor perception.
- **Management Risk.** If the portfolio managers are incorrect in their assessment of the growth prospects of the securities the Fund holds, then the value of the Fund's shares may decline. In addition, the portfolio managers' strategy may produce returns that are different from other mutual funds that invest in similar securities.
- **Master Limited Partnerships Risk.** Investments in MLPs subjects the Fund to risks associated with the specific industry or industries in which the MLPs invest. MLPs are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns.
- **Regulatory Risk.** The Fund's investments in Utility Companies may lose value because of changes in the amounts and types of governmental and environmental regulation. Regulatory regimes in various utilities industries such as electricity, broadcast, cable and common carriers impose limitations on the percentage of the shares held of a public utility by an investment adviser and its clients. Moreover, deregulation of various sectors of the utilities industry could have a negative impact on the Fund's shares as certain companies prove to be less able to meet the challenge of deregulation.
- **Market Risk.** General economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, supply chain disruptions, labor shortages, energy and other resource shortages, changes in laws, trade barriers, currency exchange controls and national and international political circumstances (including governmental responses to public

health crises or the spread of infectious diseases), may have long-term negative effects on the U.S. and worldwide financial markets and economy, and thus the Fund. Market risk includes the risk that geopolitical and other events will disrupt the economy on a national or global level. For instance, war, terrorism, market manipulation, government defaults, government shutdowns, political changes or diplomatic developments, public health emergencies (such as the spread of infectious diseases, pandemics and epidemics) and natural/environmental disasters can all negatively impact the securities markets, which could cause the Fund to lose value. These events could reduce consumer demand or economic output, result in market closures, travel restrictions or quarantines, and significantly adversely impact the economy. The current contentious domestic political environment, as well as political and diplomatic events within the United States and abroad, such as the U.S. government's inability at times to agree on a long-term budget and deficit reduction plan, has in the past resulted, and may in the future result, in a government shutdown, which could have an adverse impact on the Fund's investments and operations. Additional and/or prolonged U.S. federal government shutdowns may affect investor and consumer confidence and may adversely impact financial markets and the broader economy, perhaps suddenly and to a significant degree. Governmental and quasi-governmental authorities and regulators throughout the world have previously responded to serious economic disruptions with a variety of significant fiscal and monetary policy changes, including, but not limited to, direct capital infusions into companies, new monetary programs and dramatically lower interest rates. An unexpected or sudden reversal of these policies, or the ineffectiveness of these policies, could increase volatility in securities markets, which could adversely affect the Fund's investments. Any market disruptions could also prevent the Fund from executing advantageous investment decisions in a timely manner. To the extent that the Fund focuses its investments in a region enduring geopolitical market disruption, it will face higher risks of loss, although the increasing interconnectivity between global economies and financial markets can lead to events or conditions in one country, region or financial market adversely impacting a different country, region or financial market. Thus, investors should closely monitor current market conditions to determine whether the Fund meets their individual financial needs and tolerance for risk.

- **“Return of Capital” Risk.** The Fund's distributions may represent a non-taxable return of capital. A return of capital distribution is a distribution in excess of current and accumulated earnings and profits. A return of capital distribution is tax-free to the extent of a shareholder's basis in its Fund shares and reduces the shareholder's basis to that extent. A distribution consisting of return of capital should not be considered as the dividend yield or total return of an investment. Shareholders who receive the payment of a distribution consisting of a return of capital may be under the impression that they are receiving net profits when they are not.

Portfolio Holdings. A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the SAI, which may be obtained by calling 800-GABELLI (800-422-3554), your financial intermediary, or free of charge through the Fund's website at www.gabelli.com.

ReFlow Liquidity Program. The Fund may participate from time to time in a program offered by ReFlow Fund, LLC (“ReFlow”). Pursuant to the program and subject to certain conditions, ReFlow provides participating mutual funds with a source of cash to meet net shareholder redemptions by purchasing fund shares at net asset value in an amount up to the value of the net shares redeemed. Following purchases

of fund shares, ReFlow then redeems those shares when a fund experiences net sales, at the end of a maximum holding period determined by ReFlow, or at other times at a fund's or ReFlow's discretion. While ReFlow holds a fund's shares, it has the same rights and privileges with respect to those shares as any other shareholder. However, investments in the Fund by ReFlow are exempt from the Funds' 2.00% short term trading fee policy as described in this Prospectus.

In the event a Fund uses the ReFlow program, such Fund will pay a fee to ReFlow each time ReFlow purchases Fund shares, calculated by applying to the purchase amount a fee rate determined through an automated daily auction among participating mutual funds seeking liquidity that day. The current minimum fee rate is 0.14% of the value of a Fund's shares purchased by ReFlow. ReFlow's purchases of Fund shares through the liquidity program are made on an investment-blind basis without regard to a Fund's investment objective, policies or anticipated performance. In accordance with federal securities laws, ReFlow is prohibited from acquiring more than 3% of the outstanding voting securities of a Fund. When ReFlow redeems all or part of a position in a Fund, such Fund may pay all or a portion of such redemption in kind. Each Fund expects that in-kind redemptions will comprise a significant portion of redemptions paid to ReFlow.

MANAGEMENT OF THE FUND

The Adviser. Gabelli Funds, LLC, with its principal offices located at One Corporate Center, Rye, New York 10580-1422, is a New York limited liability company that serves as investment adviser to the Fund. The Adviser makes investment decisions for the Fund and continuously reviews and administers the Fund's investment program and manages the Fund's operations under the general supervision of the Fund's Board. The Adviser also manages several other open-end and closed-end investment companies in the Gabelli family of funds ("Gabelli Fund Complex" or "Fund Complex"). The Adviser is a wholly owned subsidiary of GAMCO Investors, Inc. ("GAMI"), a publicly held company listed on the OTCQX.

As compensation for its services and related expenses borne by the Adviser for the fiscal year ended December 31, 2024, the Fund paid the Adviser a fee computed daily and payable monthly equal to 1.00% of the value of the Fund's average daily net assets.

The Fund's Form N-CSR for the period ended June 30, 2024 contains a discussion of the basis of the Board's determination to continue the investment advisory agreement.

The Portfolio Managers. Mr. Mario J. Gabelli, CFA, is primarily responsible for the day to day investment management of the Fund. Mr. Gabelli is Chairman and Co-Chief Executive Officer of GAMI and Associated Capital Group, Inc.; Chief Investment Officer — Value Portfolios of GAMI, Gabelli Funds, LLC, and GAMCO Asset Management, Inc., another wholly owned subsidiary of GAMI; Chief Executive Officer and Chief Investment Officer of GGCP, Inc.; and an officer or director of other companies affiliated with GAMI. The Adviser relies to a considerable extent on the expertise of Mr. Gabelli, who may be difficult to replace in the event of his death, disability, or resignation.

Mr. Timothy M. Winter, CFA, has served as portfolio manager of the Fund since May 2018. He joined Gabelli & Company in April of 2009 and covers the utility industry. He has over 20 years' experience as an equity research analyst covering this industry, including the years 1992-2007 at AG Edwards from where he received industry recognition as a 3 time Wall Street Journal All-Star and was a senior member of the

Institutional Investor (I.I.) #1 ranked Electric Utility Team for the years 2001, 2002, 2003, 2004 and 2005. He was most recently recognized in the 2017 Thomson Reuters US Analyst Awards as a “Top Stock Picker” in the gas utility industry. Mr. Winter received his BA in Economics in 1991 from Rollins College and MBA in Finance from Notre Dame in 1992.

Mr. Justin Bergner joined the portfolio management team as an associate portfolio manager effective July 1, 2021. Mr. Bergner has been a research analyst at GAMCO Investors, Inc. since 2013. Mr. Bergner graduated cum laude from Yale University with a BA in Economics & Mathematics and received an MBA in Finance and Accounting from the Wharton School at the University of Pennsylvania.

Mr. Robert D. Leininger, CFA, joined the portfolio management team effective August 31, 2023. He joined GAMI in 1993 as a security analyst. Mr. Leininger moved to Rorer Asset Management LLC in Philadelphia in 1997, where he was a partner in the firm and member of the investment policy committee. In August 2009, he joined Copeland Capital Management as a partner and portfolio manager before rejoining GAMI in 2010 where he currently serves as a portfolio manager for the Adviser and on GAMCO’s institutional and high net worth separate accounts team. He is a member of the Financial Analyst Society of Philadelphia. Mr. Leininger is a magna cum laude graduate of Amherst College with a degree in Economics and holds an MBA from the Wharton School at the University of Pennsylvania.

Mr. Ashish Sinha joined the portfolio management team effective October 23, 2023. He joined GAMCO UK in 2012 as a research analyst. Prior to joining the Firm, Mr. Sinha was a research analyst at Morgan Stanley in London for seven years and has covered European Technology, Mid-Caps and Business Services. He also worked in planning and strategy at Birla Sun Life Insurance in India. Currently Mr. Sinha is a portfolio manager of Gabelli Funds, LLC and an Assistant Vice President of GAMCO Asset Management UK. Mr. Sinha has a BSBA degree from the Institute of Management Studies and an MBA from the Indian Institute of Foreign Trade.

The Fund’s SAI provides additional information about the portfolio managers’ compensation, other accounts managed by them, and their ownership of securities, if any, in the Fund.

INDEX DESCRIPTIONS

The **S&P 500 Utilities Index** is an unmanaged market capitalization-weighted index consisting of the gas, electric, and telephone stocks that are included in the S&P 500 Index, a market capitalization-weighted index of common stocks. The index figures do not reflect any deduction for fees, expenses, or taxes. You cannot invest directly in the S&P 500 Utilities Index.

The **Lipper Utility Fund Average** reflects the average performance of mutual funds classified in this particular category.

CLASSES OF SHARES

Four classes of the Fund's shares are offered in this prospectus — Class AAA shares, Class A shares, Class C shares, and Class I shares. The Fund is not designed for market timers; see the section entitled "Redemption of Shares." Each class of shares has different costs associated with buying, selling, and holding Fund shares. Your broker or other financial professional can assist you in selecting which class of shares best meets your needs based on such factors as the size of your investments and the length of time you intend to hold your shares.

The minimum initial investment for Class AAA, Class A, and Class C shares is \$1,000.

The Fund's Class AAA shares are offered only to (1) clients of broker-dealers or other financial intermediaries (i) that charge such clients an ongoing fee for advisory, investment, consulting, or similar service or (ii) where the Distributor has entered into an agreement permitting the financial intermediary to offer Class AAA shares through its mutual fund supermarket network or platform, and (2) customers of the Distributor.

Class I shares are available to investors with a minimum investment of \$50,000 and purchasing shares directly through the Distributor, or investors purchasing Class I shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class I shares. Such brokers or financial intermediaries may have different requirements as to the investment minimum. If you transact in Class I shares through a broker or financial intermediary, you may be required to pay a commission and/or other forms of compensation to the broker or financial intermediary.

The Distributor or its affiliates may, in their discretion, accept investments from purchasers that do not meet the qualification requirements.

There is no minimum for subsequent investments.

The table that follows summarizes the differences among the classes of shares.

- A "front-end sales load" or sales charge is a one time fee that may be charged at the time of purchase of shares.
- A contingent deferred sales charge ("CDSC") is a one time fee that may be charged at the time of redemption.
- A "Rule 12b-1 fee" is a recurring annual fee for distributing shares and servicing shareholder accounts based on the Fund's average daily net assets attributable to the particular class of shares.

In selecting a class of shares in which to invest, you should consider:

- the length of time you plan to hold the shares;
- the amount of sales charge and Rule 12b-1 fees, recognizing that your share of Rule 12b-1 fees as a percentage of your investment increases if the Fund's assets increase in value and decreases if the Fund's assets decrease in value;
- whether you qualify for a reduction or waiver of the Class A sales charge; and
- whether you qualify to purchase Class AAA shares or Class I shares.

	Class AAA Shares	Class A Shares	Class C Shares	Class I Shares
Front-End Sales Load?	No.	Yes. The percentage declines as the amount invested increases. The offering price of a Class A share includes the front-end sales load.	No.	No.
Contingent Deferred Sales Charge?	No.	No, except for shares redeemed up to and including the last day of the eighteenth month after purchase as part of an investment greater than \$1 million if no front-end sales charge was paid at the time of purchase.	Yes, for shares redeemed up to and including the last day of the twelfth month after purchase.	No.
Rule 12b-1 Fee	0.25%	0.25%	1.00%	None.
Convertible to Another Class?	Yes. May be converted to Class I shares provided certain conditions are met.	Yes. May be converted to Class I shares provided certain conditions are met.	Yes. May be converted to Class I shares provided certain conditions are met. Conversion to Class A shares after approximately eight years.	No.
Fund Expense Levels	Lower annual expenses than Class C shares. Higher annual expenses than Class I shares. Same as Class A shares.	Lower annual expenses than Class C shares. Higher annual expenses than Class I shares. Same as Class AAA shares.	Higher annual expenses than Class AAA, Class A, and Class I shares.	Lower annual expenses than Class AAA, Class A, and Class C shares.

The following sections and Appendix A to this prospectus include important information about sales charges and sales charge reductions and waivers, and describe information or records you may need to provide to the Fund or your broker in order to be eligible for sales charge reductions and waivers. Intermediaries may have different policies and procedures regarding the availability of sales charge reductions and waivers; please refer to Appendix A to this prospectus, which describes all such intermediaries. Information about sales charges and sales charge reductions and waivers to the various classes of the Fund's shares is also available free of charge and in a clear and prominent format on our website at www.gabelli.com. You should consider the information below as a guide only, as the decision on which share class is best for you depends on your individual needs and circumstances.

If you	then you should consider
<ul style="list-style-type: none"> • qualify for a reduced or waived front-end sales load 	purchasing Class A shares instead of Class C shares
<ul style="list-style-type: none"> • do not qualify for a reduced or waived front-end sales load and intend to hold your shares for only a few years 	purchasing Class C shares instead of Class A shares
<ul style="list-style-type: none"> • do not qualify for a reduced or waived front-end sales load and intend to hold your shares indefinitely 	purchasing Class A shares instead of Class C shares
<ul style="list-style-type: none"> • are eligible and wish to purchase at least \$50,000 worth of shares 	purchasing Class I shares
<ul style="list-style-type: none"> • qualify for no-load 	purchasing Class AAA shares

Sales Charge — Class A Shares. Unless you are eligible for a sales charge reduction or a waiver as set forth in Appendix A to this prospectus, the sales charge is imposed on Class A shares at the time of purchase in accordance with the following schedule. It is the purchaser’s responsibility to notify the Fund, the Distributor, or the purchaser’s financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge reductions or waivers.

<u>Amount of Investment</u>	<u>Sales Charge as % of the Offering Price*</u>	<u>Sales Charge as % of Amount Invested</u>	<u>Reallowance to Broker-Dealers</u>
Under \$50,000	5.75%	6.10%	5.00%
\$50,000 but under \$100,000	4.75%	4.99%	4.00%
\$100,000 but under \$250,000	3.75%	3.90%	3.00%
\$250,000 but under \$500,000	2.75%	2.83%	2.25%
\$500,000 but under \$1 million	2.00%	2.04%	1.75%
\$1 million but under \$2 million	0.00%**	0.00%	1.00%
\$2 million but under \$5 million	0.00%**	0.00%	0.50%
\$5 million or more	0.00%**	0.00%	0.25%

* Front-end sales load. The term “offering price” includes the front-end sales load.

** Subject to a CDSC equivalent to the corresponding amount listed under the column “Reallowance to Broker-Dealers” for redemptions up to and including the last day of the eighteenth month after purchase.

No sales charge is imposed on reinvestment of dividends and distributions if you selected that option in advance of the distributions.

Breakpoints or Volume Discounts

The Fund offers you the benefit of discounts on the sales charges that apply to purchases of Class A shares in certain circumstances. These discounts, which are also known as breakpoints, can reduce or, in some instances, eliminate the initial sales charges that would otherwise apply to your Class A shares investment. Mutual funds are not required to offer breakpoints and different mutual fund groups may offer different types of breakpoints.

Breakpoints or volume discounts allow larger investments in Class A shares to be charged lower sales charges. If you invest \$50,000 or more in Class A shares of the Fund, then you are eligible for a reduced sales charge. Initial sales charges are eliminated completely for purchases of \$1,000,000 or more, although a 1% CDSC may apply if shares are redeemed up to and including the last day of the eighteenth month after purchase.

Sales Charge Reductions and Waivers – Class A Shares

Reduced sales charges are available to (1) investors who are eligible to combine their purchases of Class A shares to receive volume discounts and (2) investors who sign a Letter of Intent (“Letter”) agreeing to make purchases over time. Certain types of investors, as set forth below, are eligible for sales charge waivers.

Class A shares may be available for purchase by clients of certain financial intermediaries without the application of a front-end sales load, as described in Appendix A to the prospectus.

You may qualify for a reduced sales charge, or a waiver of sales charges, on purchases of Class A shares. The requirements are described in the following paragraphs. To receive a reduction that you qualify for, you may have to provide additional information to your broker or other service agent. For more information about sales charge discounts and waivers, consult with your broker or other service provider.

Volume Discounts/Rights of Accumulation. In order to determine whether you qualify for a volume discount under the foregoing sales charge schedule, you may combine your new investment and your existing investments in Class A shares with those of your immediate family (spouse and children under age 21), your and their IRAs, and other employee benefit plans and trusts and other fiduciary accounts for you and their benefit. You may also include Class A shares of any other open-end investment company managed by the Adviser or its affiliates that are held in any of the foregoing accounts. The Fund uses the current net asset value per share (“NAV”) of these holdings when combining them with your new and existing investments for purposes of determining whether you qualify for a volume discount.

Letter of Intent. If you initially invest at least \$1,000 in Class A shares of the Fund and submit a Letter to your financial intermediary or the Distributor, you may make purchases of Class A shares of the Fund during a thirteen-month period at the reduced sales charge rates applicable to the aggregate amount of the intended purchases stated in the Letter. The Letter may apply to purchases made up to ninety days before the date of the Letter. If you fail to invest the total amount stated in the Letter, the Fund will retroactively collect the sales charge otherwise applicable by redeeming shares in your account at their then current NAV. For more information on the Letter, call your broker.

Required Shareholder Information and Records. In order for you to take advantage of sales charge reductions, you or your broker must notify the Fund that you qualify for a reduction. Without notification, the Fund is unable to ensure that the reduction is applied to your account. You may have to provide information or records to your broker or the Fund to verify eligibility for breakpoint privileges or other sales charge waivers. This may include information or records, including account statements, regarding shares of the Fund or shares of any other open-end investment company managed by the Adviser or its affiliates held in:

- all of your accounts at the Fund or a financial intermediary;
- any account of yours at another financial intermediary; and
- accounts of related parties of yours, such as members of the same family, at any financial intermediary.

You should therefore keep copies of these types of records.

Investors Eligible for Sales Charge Waivers. Class A shares of the Fund may be offered without a sales charge to: (1) employees of the Distributor and its affiliates, The Bank of New York Mellon Corporation, SS&C Global & Distribution Solutions, Inc. (“SS&C GIDS” or the “Transfer Agent”), State Street Bank and Trust Company, (“State Street”), BNY Mellon Investment Servicing (US) Inc., and Soliciting Broker-Dealers, employee benefit plans for those employees and their spouses and minor children of such employees when orders on their behalf are placed by such employees (the minimum initial investment for such purchases is \$500); (2) the Adviser, its affiliates and their officers, directors, trustees, general partners, and employees of other investment companies managed by the Adviser, employee benefit plans for such persons and their immediate family when orders on their behalf are placed by such persons (with no required minimum initial investment) — the term “immediate family” for this purpose refers to a person’s spouse, children and grandchildren (adopted or natural), parents, grandparents, siblings, a spouse’s siblings, a sibling’s spouse, and a sibling’s children; (3) any other investment company in connection with the combination of such company with the Fund by merger, acquisition of assets, or otherwise; (4) shareholders who have redeemed shares in the Fund and who wish to reinvest in the Fund, provided the reinvestment is made within ninety days of the redemption; (5) employee benefit plans; (6) any unit investment trusts registered under the 1940 Act which have shares of the Fund as a principal investment; (7) investment advisory clients of GAMCO Asset Management, Inc. and their immediate families; (8) financial institutions purchasing Class A shares of the Fund for clients participating in a fee based asset allocation program or wrap fee program; and (9) investment advisers or financial planners who place trades for their own accounts or the accounts of their clients and who charge a management, consulting, or other fee for their services; and clients of such investment advisers or financial planners who place trades for their own accounts if the accounts are linked to the master account of such investment adviser or financial planner on the books and records of a broker or financial intermediary.

Additional categories of sales charge reductions and waivers are also set out in Appendix A to this prospectus.

Investors who qualify under any of the categories described above or those set out in the Appendix A to this prospectus should contact their broker or financial intermediary. Some of these investors may also qualify to invest in Class I shares.

Contingent Deferred Sales Charges

You will pay a CDSC when you redeem:

- Class A shares up to and including the last day of the eighteenth month from when they were purchased as part of an investment greater than \$1 million if no front-end sales charge was paid at the time of purchase; or
- Class C shares up to and including the last day of the twelfth month from when they were purchased.

The CDSCs payable upon redemption of Class A shares in the circumstances described above are 1.00% for investments of \$1 million but less than \$2 million, 0.50% for investments of \$2 million but less than \$5 million, and 0.25% for investments of \$5 million or more. The CDSC payable upon redemption of Class C shares in the circumstances described above is 1.00%. In each case, the CDSC is based on the NAV at the time of your investment or the NAV at the time of redemption, whichever is lower.

The Distributor pays sales commissions of up to 1.00% of the purchase price of Class C shares of the Fund at the time of sale to brokers and financial intermediaries that initiate and are responsible for purchases of such Class C shares of the Fund.

You will not pay a CDSC to the extent that the value of the redeemed shares represents reinvestment of distributions or capital appreciation of shares redeemed. When you redeem shares, we will assume that you are first redeeming shares representing reinvestment of dividends and capital gain distributions, then any appreciation on shares redeemed, and then any remaining shares held by you for the longest period of time. We will calculate the holding period of shares acquired through an exchange of shares of another fund from the date you acquired the original shares of the other fund. The time you hold shares in the Gabelli money market fund, however, will not count for purposes of calculating the applicable CDSC.

We will waive the CDSC payable upon redemptions of shares for:

- redemptions and distributions from retirement plans made after the death or disability of a shareholder;
- minimum required distributions made from an IRA or other retirement plan account after you reach age 70½;
- involuntary redemptions made by the Fund;
- a distribution from a tax deferred retirement plan after your retirement; and
- returns of excess contributions to retirement plans following the shareholder's death or disability.

The CDSC may be waived if you purchase your shares through intermediaries identified in Appendix A to this prospectus.

Rule 12b-1 Plan. The Fund has adopted distribution plans under Rule 12b-1 for Class AAA, Class A and Class C shares of the Fund ("Plans" or each, a "Plan"). Under these Plans, the Fund may use its assets to finance activities relating to the sale of its Class AAA, Class A and Class C shares and the provision of certain shareholder services. To the extent any activity is one that the Fund may finance without a distribution plan, the Fund may also make payments to compensate for such activities outside a Plan and not be subject to its limitations.

The Class AAA and Class A Plans authorize payments by the Fund at an annual rate of 0.25% of its average daily net assets attributable to Class AAA and Class A shares to finance distribution of its Class AAA and Class A shares or pay shareholder service fees. The Class C Plan authorizes payments by the Fund at an annual rate of 0.75% of its average daily net assets attributable to Class C shares to finance distribution of its Class C shares and 0.25% for shareholder service fees.

Because the Rule 12b-1 fees are higher for Class C shares than for Class AAA or Class A shares, Class C shares will have higher annual expenses. Because Rule 12b-1 fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges. Due to the payment of Rule 12b-1 fees, long term shareholders may indirectly pay more than the equivalent of the maximum permitted front-end sales charge.

Redemption Fee. Generally, if you sell or exchange your shares within seven days or less after the purchase date, you will be charged a redemption fee of 2.00% of the total redemption amount which is payable to the Fund. See "Redemption of Shares" herein.

PURCHASE OF SHARES

You can purchase the Fund's shares on any Business Day.

- **By Mail or In Person.** You may open an account by mailing a completed subscription order form with a check or money order payable to "The Gabelli Utilities Fund" to:

By Mail

The Gabelli Funds
P.O. Box 219204
Kansas City, MO 64121-9204

By Personal or Overnight Delivery

The Gabelli Funds
c/o SS&C GIDS
801 Pennsylvania Avenue, Suite 219204
Kansas City, MO 64105-1307

You can obtain a subscription order form by calling 800-GABELLI (800-422-3554). Checks made payable to a third party and endorsed by the shareholder are not acceptable. For additional investments, send a check to the above address with a note stating your exact name and account number, the name of the fund(s), and class of shares you wish to purchase.

- **By Internet.** You may open an account over the Internet at www.gabelli.com.
- **By Bank Wire or by ACH System.** To open an account using the bank wire transfer system or ACH system, first telephone the Fund at 800-GABELLI (800-422-3554) to obtain a new account number. Then instruct your bank to wire the funds to:

State Street Bank and Trust Company
225 Franklin Street, Boston, MA 02110
ABA #011-0000-28 REF DDA #99046187
Re: The Gabelli Utilities Fund
Account # _____
Account of [Registered Owners]

- **By Telephone.** You may make purchases for an existing account with banking instructions on file by telephone at 800-GABELLI (800-422-3554).

If you are making an initial purchase, you should also complete and mail a subscription order form to the address shown under "By Mail." Note that banks may charge fees for wiring funds, although the Fund's transfer agent, SS&C GIDS, will not charge you for receiving wire transfers.

You may purchase shares directly through registered broker-dealers or other financial intermediaries that have entered into appropriate selling agreements with the Distributor.

Your broker-dealer or financial intermediary can obtain a subscription order form by calling 800-GABELLI (800-422-3554). The broker-dealer or other financial intermediary will transmit a purchase order and payment to SS&C GIDS on your behalf. Broker-dealers or other financial intermediaries may send you confirmations of your transactions and periodic account statements showing your investments in the Fund.

Share Price. The Fund sells its shares based on the NAV next determined after the time as of which the Fund receives your completed subscription order form but does not issue the shares to you until it receives full payment, subject to a front-end sales charge in the case of Class A shares. See "Pricing of Fund Shares" herein for a description of the calculation of the NAV, as described under "Classes of Shares — Sales Charge — Class A Shares."

Minimum Investments. The minimum initial investment for Class AAA, Class A, and Class C shares is \$1,000 (\$250 for IRAs or Coverdell Education Savings Plans). The minimum initial investment for Class I shares is \$50,000 for investors purchasing Class I shares directly through the Distributor. Investors who wish to purchase Class I shares through brokers or financial intermediaries that have entered into selling agreements with the Distributor specifically with respect to Class I shares should consult their broker or financial intermediary with respect to any minimum investment amount required for their account. The Distributor or its affiliates may, in their discretion, waive the minimum investment requirement under certain circumstances. There is no minimum for subsequent investments. Broker-dealers and financial intermediaries may have different minimum investment requirements.

General. SS&C GIDS will not issue share certificates unless you request them. The Fund reserves the right to (i) reject any purchase order if, in the opinion of the Fund's management, it is in the Fund's best interest to do so, (ii) suspend the offering of shares for any period of time, and (iii) waive the Fund's minimum purchase requirements. Except for differences attributable to these arrangements, the shares of all classes are substantially the same.

Customer Identification Program. Federal law requires the Fund to obtain, verify, and record identifying information, which may include the name, residential or business address, date of birth (for an individual), social security or taxpayer identification number, or other identifying information, for each investor who opens or reopens an account with the Fund. Applications without the required information may be rejected or placed on hold until the Fund verifies the account holder's identity.

Third Party Arrangements. In addition to, or in lieu of amounts received by broker-dealers or other financial intermediaries as reallowances of a portion of sales commissions, the Adviser and its affiliates may utilize a portion of their assets, which may include revenues received under the Plans, to pay all or a portion of the charges of various programs that make shares of the Fund available to their customers. These payments, sometimes referred to as "revenue sharing," do not change the price paid by investors to purchase the Fund's shares or the amount the Fund receives as proceeds from such sales. Revenue sharing payments may be made to broker-dealers and other financial intermediaries that provide services to the Fund or to shareholders in the Fund, including (without limitation) the following programs: shareholder servicing to Fund shareholders, transaction processing, sub-accounting services, marketing support, access to sales meetings, sales representatives, and management representatives of the broker-dealer or other financial intermediaries. Revenue sharing payments may also be made to broker-dealers and other financial intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, and in other sales programs. These payments take a variety of forms, including (without limitation) compensation for sales, "trail" fees for shareholder servicing and maintenance of shareholder accounts, and finders' fees that vary depending on the share class and the dollar amount of shares sold. Revenue sharing payments may be structured: (i) as a percentage of sales; (ii) as a percentage of net assets; and/or (iii) as a fixed dollar amount.

The Adviser may also provide non-cash compensation to broker-dealers or other financial intermediaries in accordance with applicable rules of the Financial Industry Regulatory Authority, Inc. ("FINRA"), such as the reimbursement of travel, lodging, and meal expenses incurred in connection with attendance at educational and due diligence meetings or seminars by qualified registered representatives of those firms and, in certain

cases, their families; meeting fees; certain entertainment; advertising or other promotional expenses; or other permitted expenses as determined in accordance with applicable FINRA rules. In certain cases these other payments could be significant.

Subject to tax limitations and approval by the Board, the Fund may also make payments to third parties out of its own assets (other than Rule 12b-1 payments) for a portion of the charges for those programs that generally represent savings of expenses experienced by the Fund resulting from shareholders investing in the Fund through such programs rather than investing directly in the Fund.

The Adviser negotiates the level of payments described above to any particular broker-dealer or other financial intermediary. Currently, such payments (expressed as a percentage of net assets) range from 0.10% to 0.40% per year of the average daily net assets of the Fund attributable to the particular firm depending on the nature and level of services and other factors. In the case of Class I shares, the Fund may not make any payments for distribution related services.

In addition, in certain cases, broker-dealers or other financial intermediaries, may have agreements pursuant to which shares of the Fund owned by their clients are held of record on the books of the Fund in omnibus accounts maintained by each intermediary, and the intermediaries provide those Fund shareholders with sub-administration and sub-transfer agency services. Pursuant to the Fund's transfer agency agreement, the Fund pays the transfer agent a fee for each shareholder account. As a result, the use of one omnibus account for multiple beneficial shareholders can create a cost savings to the Fund. The Board may, from time to time, authorize the Fund to pay for a portion of the fees charged by these intermediaries if (i) a cost savings to the Fund can be demonstrated and (ii) the omnibus account of the intermediary has net assets in the Fund in excess of \$10 million. In these cases, the Board may authorize the Fund to pay a portion of the fees to the intermediary in an amount no greater than the lower of the transfer agency cost savings relating to the particular omnibus account or 0.10% of the average daily net assets of that omnibus account. These payments compensate these intermediaries for the provision of sub-administration and sub-transfer agency services associated with their clients whose shares are held of record in this manner.

Additional Purchase Information

Retirement Plans/Education Savings Plans. The Fund makes available IRAs and Coverdell Education Savings Plans for investment in Fund shares. Applications may be obtained from the Distributor by calling 800-GABELLI (800-422-3554). Self-employed investors may purchase shares of the Fund through tax-deductible contributions to existing retirement plans for self-employed persons, known as "Keogh" or "H.R.-10" plans. The Fund does not currently act as a sponsor to such plans. Fund shares may also be a suitable investment for other types of qualified pension or profit sharing plans which are employer sponsored, including deferred compensation or salary reduction plans known as "401(k) Plans." For Class AAA, A, and C shares, the minimum initial investment in all such retirement and education savings plans is \$250. There is no minimum subsequent investment for retirement or education savings plans.

Automatic Investment Plan. The Fund offers an automatic monthly investment plan. For Class AAA, A, and C shares, there is no minimum initial investment for accounts establishing an automatic investment plan. Call your financial intermediary or the Distributor at 800-GABELLI (800-422-3554) for more details about the plan.

Telephone or Internet Investment Plan. You may purchase additional shares of the Fund by telephone and/or over the Internet if your bank is a member of the ACH system. You must have a completed and approved Account Options Form on file with the Transfer Agent. There is a minimum of \$100 for each telephone or Internet investment. However, you may split the \$100 minimum between two funds. To initiate an ACH purchase, please call your financial intermediary or 800-GABELLI (800-422-3554) or 800-872-5365 or visit our website at www.gabelli.com.

Voluntary Conversion. Shareholders may be able to convert shares to Class I shares of the Fund, which have a lower expense ratio, provided certain conditions are met. For Class A and Class C shares, this conversion feature is intended for shares held through a financial intermediary offering a fee-based or wrap fee program that has an agreement with the Adviser or the Distributor specific for this purpose. Shareholders who currently hold Class AAA shares and are eligible to purchase Class I shares may convert existing Class AAA shares of the same Fund through their financial intermediary if their financial intermediary has a specific agreement with the Distributor. In such instances, Class AAA, Class A and Class C shares may be converted under certain circumstances. Generally, Class C shares are not eligible for conversion until the applicable CDSC period has expired. Under current interpretation of applicable federal income tax law by the Internal Revenue Service, voluntary conversions to a different class of shares generally should not be treated as a taxable event. Please contact your financial intermediary for additional information. Not all share classes are available through all financial intermediaries.

If shares of the Fund are converted to a different share class of the Fund, the transaction will be based on the respective NAV of each class as of the trade date of the conversion. Consequently, a shareholder may receive fewer shares or more shares than originally owned, depending on that day's NAVs. Please contact your tax adviser regarding the tax consequences of any conversion.

Conversion of Class C shares to Class A shares. Investors whose accounts are held at the Fund's transfer agent are eligible to hold Class C shares of the Fund only until the month of the 8-year anniversary of the purchase date. In the month of the 8-year anniversary of the purchase date, the Fund will convert such an investor's Class C shares into Class A shares. This conversion will not be subject to any sales charge, fee, or other charge, and will be based on the relative NAVs of the two classes in question. The Internal Revenue Service currently takes the position that such conversions are not taxable. Should its position change, the conversion feature may be suspended. If this were to happen, you would have the option of instructing the Fund to continue to convert your Class C shares of the Fund to Class A shares of the Fund at the anniversary date described above. This conversion would also be based on the relative NAVs of the two classes in question, without the imposition of a sales charge or fee, but you might face certain tax consequences as a result. Shareholders should consult with their tax advisor regarding the state and local tax consequences of such conversions.

Investors holding Class C shares of the Fund through a financial intermediary in "street name" may be subject to different eligibility requirements regarding the holding of Class C shares of the Fund. In this regard, a financial intermediary may sponsor and/or control accounts, programs or platforms that impose a different conversion schedule or different eligibility requirements for the conversion of Class C shares into Class A shares. In these cases, Class C shares of the Fund may be converted to Class A shares under the policies of the financial intermediary and the conversion may be structured as an exchange of Class C shares for Class A shares of the Fund. Financial intermediaries will be responsible for making such exchanges in those circumstances.

Please consult with your financial intermediary if you have any questions regarding your shares' conversion from Class C shares to Class A shares. To the extent a financial intermediary's policies provide for no such conversion, or for a conversion schedule that extends beyond the month of the 8-year anniversary of the purchase date, investors holding Class C shares through such financial intermediary may be disadvantaged relative to investors holding Class C shares either at the Fund's transfer agent or through another financial intermediary. Because Class C shares pay higher ongoing asset-based distribution and shareholder servicing fees than Class A shares, financial intermediaries may have a conflict of interest in establishing their relevant conversion schedules and eligibility requirements. Additional information can be found in Appendix A, "Sales Charge Reductions and Waivers Available Through Certain Intermediaries," attached to the Fund's prospectus.

Conversion Among Classes Based on Eligibility Criteria. Shareholders who hold their shares of the Fund directly at the Fund's transfer agent are only eligible to hold the class of Fund shares with the lowest Distribution and Service (Rule 12b-1) Fees for which such shareholders are otherwise eligible to purchase or hold based on the minimum investment requirements and other eligibility criteria for that class.

In determining whether a shareholder is eligible to continue to hold any particular class of Fund shares, the Adviser considers each class's minimum investment requirements and other eligibility criteria. See "Classes of Shares" herein.

The Adviser will make the foregoing eligibility determinations at least once per calendar year (the "Determination Date"). Based on this determination, if a shareholder who holds its shares directly at the Fund's transfer agent is eligible to hold a class of Fund shares with lower Distribution and Service (Rule 12b-1) Fees, any of such shareholder's shares not already held as that class will be converted to that class within approximately 30 calendar days following the Determination Date. In no event will a shareholder's shares be converted to a class of shares bearing higher Distribution and Service (Rule 12b-1) Fees, irrespective of the foregoing eligibility determinations.

For U.S. federal income tax purposes, the conversion of a shareholder's investment from one class of shares of the Fund to another class of shares of the Fund generally should not result in the recognition of gain or loss. Thus, in general, the shareholder's tax basis in the new class of shares immediately after the conversion should equal the shareholder's tax basis in the converted shares immediately before the conversion, and the holding period of the new class of shares should include the holding period of the converted shares.

REDEMPTION OF SHARES

You can redeem shares of the Fund on any Business Day. The Fund may temporarily stop redeeming its shares beyond seven (7) days when the NYSE is closed, when trading on the NYSE is restricted (as determined by the Securities and Exchange Commission ("SEC")), or when an emergency exists (as determined by the SEC), and the Fund cannot sell its portfolio securities or accurately determine the value of its assets, or if the SEC orders the Fund to suspend redemptions.

The Fund redeems its shares based on the NAV per share next determined after the time as of which the Fund or, if applicable, its authorized designee, receives your redemption request in proper form, subject in some cases to a redemption fee or a CDSC, as described under "Classes of Shares — Contingent Deferred Sales Charges" or a redemption fee as described below in this section. See "Pricing of Fund Shares"

herein for a description of the calculation of NAV. A redemption is a taxable event to you on which you would realize gain or loss (subject to certain limitations on the deductibility of losses). In instances where a redemption fee is triggered, a CDSC may also apply, as described in greater detail in other parts of this prospectus. The purchase and redemption of shares under the ReFlow Liquidity Program are exempt from the 2.00% short term trading fee policy that is described below, as these transactions do not raise market timing or excessive trading concerns.

You may redeem shares through a broker-dealer or other financial intermediary that has entered into a selling agreement with the Distributor. The broker-dealer or other financial intermediary will transmit a redemption order to SS&C GIDS on your behalf. The redemption request will be effected at the NAV next determined (less any applicable CDSC) after the Fund or, if applicable, its authorized designee, receives the request in proper form. If you hold share certificates, you must present the certificates endorsed for transfer.

The Fund is intended for long term investors and not for those who wish to trade frequently in Fund shares. The Fund believes that excessive short term trading of Fund shares creates risks for the Fund and its long term shareholders, including interference with efficient portfolio management, increased administrative and brokerage costs, and potential dilution in the value of Fund shares.

In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, frequent trading by some shareholders may, in certain circumstances, dilute the value of Fund shares held by other shareholders. This may occur when an event that affects the value of the foreign securities takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV. Certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (referred to as price arbitrage). If this occurs, frequent traders who attempt this type of price arbitrage may dilute the value of the Fund's shares to the extent they receive shares or proceeds based upon NAVs that have been calculated using the closing market prices for foreign securities, if those prices have not been adjusted to reflect a change in the fair value of the foreign securities. In an effort to prevent price arbitrage, the Fund has procedures designed to adjust closing market prices of foreign securities before it calculates its NAV when it believes such an event has occurred that will have more than a minimal effect on the NAV. Prices are adjusted to reflect what the Fund believes are the fair values of these foreign securities at the time the Fund determines its NAV (called fair value pricing). Fair value pricing, however, involves judgments that are inherently subjective and inexact since it is not always possible to be sure when an event will affect a market price and to what extent. As a result, there can be no assurance that fair value pricing will always eliminate the risk of price arbitrage.

In order to discourage frequent short term trading in Fund shares, the Fund has adopted policies and procedures that impose a 2.00% redemption fee (short term trading fee) on shares that are redeemed or exchanged within seven days of a purchase. This fee is calculated based on the shares' aggregate NAV on the date of redemption and deducted from the redemption proceeds. The redemption fee is not a sales charge; it is retained by the Fund and does not benefit the Fund's Adviser, the Distributor, or any third party. For purposes of computing the redemption fee, shares will be redeemed in reverse order of purchase (the latest shares acquired will be treated as being redeemed first). Redemptions to which the fee applies include redemption of shares resulting from an exchange made pursuant to the Fund's exchange privilege. The redemption fee will not apply to redemptions of shares where (i) the shares were purchased through

automatic reinvestment of dividends or other distributions, (ii) the redemption is initiated by the Fund, (iii) the shares were purchased through programs that collect the redemption fees at the program level and remit them to the Fund, or (iv) the shares were purchased through programs that the Adviser determines to have appropriate anti-short term trading policies in place or as to which the Adviser has received assurances that look through redemption fee procedures or effective anti-short term trading policies and procedures are in place.

While the Fund has entered into information sharing agreements with financial intermediaries which contractually require such financial intermediaries to provide the Fund with information relating to their customers investing in the Fund through non-disclosed or omnibus accounts, the Fund cannot guarantee the accuracy of the information provided to it from financial intermediaries and may not always be able to track short term trading effected through these financial intermediaries. In addition, because the Fund is required to rely on information provided by the financial intermediary as to the applicable redemption fee, the Fund cannot guarantee that the financial intermediary is always imposing such fee on the underlying shareholder in accordance with the Fund's policies. Subject to the exclusions discussed above, the Fund seeks to apply these policies uniformly.

Certain financial intermediaries may have procedures which differ from those of the Fund to collect the redemption fees or that prevent or restrict frequent trading. Investors should refer to their intermediary's policies on frequent trading restrictions.

The Fund continues to reserve all rights, including the right to refuse any purchase request (including requests to purchase by exchange) from any person or group who, in the Fund's view, is likely to engage in excessive trading or if such purchase is not in the best interest of the Fund and to limit, delay, or impose other conditions on exchanges or purchases. The Fund has adopted a policy of seeking to minimize short term trading in its shares and monitors purchase and redemption activities to assist in minimizing short term trading.

If you hold shares directly through the Distributor, you may redeem shares:

- **By Letter.** You may mail a letter requesting the redemption of shares to: **The Gabelli Funds, P.O. Box 219204, Kansas City, MO 64121-9204.** Your letter should state the name of the fund(s) and the share class, the dollar amount or number of shares you wish to redeem, and your account number. You must sign the letter in exactly the same way the account is registered and, if there is more than one owner of shares, all owners must sign. A medallion signature guarantee is required for each signature on your redemption letter. You can obtain a medallion signature guarantee from financial institutions such as commercial banks, broker-dealers, savings banks, and credit unions. A notary public cannot provide a medallion signature guarantee.
- **By Telephone or the Internet.** Unless you have requested that telephone or Internet redemptions from your account not be permitted, you may redeem your shares in an account (excluding an IRA) directly registered with SS&C GIDS by calling either 800-GABELLI (800-422-3554) or 800-872-5365 (617-328-5000 from outside the United States), or by visiting our website at www.gabelli.com. You may not redeem Fund shares held through an IRA through the Internet. IRA holders should consult a tax adviser concerning the current tax rules applicable to IRAs. If SS&C GIDS properly acts on telephone or Internet instructions after following reasonable procedures to protect against unauthorized transactions, neither SS&C GIDS nor the Fund will be responsible

for any losses due to unauthorized telephone or Internet transactions and instead you would be responsible. You may request that proceeds from telephone or Internet redemptions be mailed to you by check (if your address has not changed in the prior thirty days), forwarded to you by bank wire, or invested in another mutual fund advised by the Adviser (see “Exchange of Shares”). Among the procedures that SS&C GIDS may use are passwords or verification of personal information. The Fund may impose limitations from time to time on telephone or Internet redemptions.

1. Telephone or Internet Redemption By Check. The Fund will make checks payable to the name in which the account is registered and will normally mail the check to the address of record within seven days.
2. Telephone or Internet Redemption By Bank Wire or ACH System. The Fund accepts telephone or Internet requests for wire or ACH system redemptions in amounts of at least \$1,000. The Fund will send an ACH system credit or wire to either a bank designated on your subscription order form or on a subsequent letter with a medallion signature guarantee. The proceeds are normally wired on the next Business Day.

If you redeem shares through your broker or other financial intermediary, the broker or financial intermediary will transmit a redemption order to SS&C GIDS on your behalf. The redemption request will be effected at the NAV per share next determined (less any applicable CDSC and redemption fee, if applicable) after the Fund receives the request in proper form. If you hold share certificates, you must present the certificates endorsed for transfer.

Automatic Cash Withdrawal Plan. You may automatically redeem shares on a monthly, quarterly, or annual basis if you have at least \$10,000 in your account and if your account is directly registered with SS&C GIDS. Please call 800-GABELLI (800-422-3554) for more information about this plan.

Involuntary Redemption. The Fund may redeem all shares in your account (other than an IRA or Coverdell education savings account) if the value falls below \$1,000 as a result of redemptions (but not as a result of a decline in NAV). You will be notified in writing before the Fund initiates such action and you will be allowed thirty days to increase the value of your account to at least \$1,000.

Reinstatement Privilege. A shareholder in the Fund who has redeemed Class A shares may reinvest, without a sales charge, up to the full amount of such redemption at the NAV determined at the time of the reinvestment within ninety days of the original redemption. A redemption is a taxable transaction and a gain or loss may be recognized for federal income tax purposes even if the reinstatement privilege is exercised. However, any loss realized upon the redemption will not be recognized as to the number of shares acquired by reinstatement within thirty days of the redemption, in which case an adjustment will be made to the tax basis of the shares so acquired.

Redemption Proceeds. The Fund expects to meet redemption requests typically by selling portfolio assets, with holdings of cash and cash equivalents, or by drawing on its line of credit. In certain circumstances, the Fund may meet a redemption request in-kind, as described under “Redemption In Kind.” These methods of meeting redemption requests are expected to be used in both normal and stressed market conditions. A redemption request received by the Fund will be effected based on the NAV per share next determined after the time as of which the Fund or, if applicable, its authorized designee, receives the request. If you request redemption proceeds by wire, the Fund will normally wire the funds according to the wire instructions you

provide, within three business days after receipt of your redemption request. If you request redemption proceeds by check, the Fund will normally mail the check to you within seven days after receipt of your redemption request. If you purchased your Fund shares by check or through the Automatic Investment Plan you may not receive proceeds from your redemption until the check clears or ten days following the purchase, whichever is earlier. While the Fund will delay the processing of the redemption payment until the check clears, your shares will be valued at the next determined NAV after receipt of your redemption request. Typically, the Fund receives redemption requests through the National Securities Clearing Corporation (“NSCC”) system, which is utilized by financial intermediaries to submit requests on behalf of their clients or customers who hold shares of the Fund in “street name.” In such circumstances, the Fund expects redemption proceeds to be delivered via the NSCC system within three business days after receipt of a redemption request. The NSCC system is not used for shareholders whose accounts are held at the Fund’s transfer agent (as opposed to shareholders whose accounts are held in “street name” at a broker or other financial intermediary).

Redemption In Kind. The Fund may pay your redemption proceeds wholly or partially in portfolio securities. Specifically, the Fund may pay your redemption proceeds in portfolio securities if (a) you redeem more than \$250,000 over the preceding three months, and (b) either the Adviser believes that economic conditions exist which would make payments in cash detrimental to the best interests of the Fund or you have indicated a preference to the Fund for redemptions in kind. In either such an instance, the Fund would communicate to you its intention to meet your redemption request in portfolio securities. The Fund intends to honor requests from shareholders for in kind redemptions where it is practicable to do so and otherwise in the best interest of the Fund.

Securities received in kind will remain subject to the risk of market fluctuations until sold; however, the Fund’s policy is only to distribute securities to you from its portfolio of investments that meet the following criteria: (i) traded on a major stock exchange and have a free float of at least \$500 million, or (ii) the subject of a publicly announced takeout transaction pursuant to which each party thereto has executed a binding transaction agreement and in which there is no pending litigation challenging the completion of the transaction. In either case, the Fund will not distribute an amount of securities of a particular issuer that exceeds 25% of the average daily trading volume of such security over the preceding 20 trading days.

The specific security or securities to be distributed will be selected by an ad hoc committee of independent Board members pursuant to a written policy adopted by the Board, including the independent Board members. Subject to the Fund’s redemption in kind policy, and any applicable laws or regulations, the securities to be distributed could be individual securities, a representative basket of securities or a pro-rata slice of the Fund’s portfolio securities that are traded on a major stock exchange and have a free float of at least \$500 million. In identifying potential individual securities to be distributed, the Fund’s redemption in kind policy favors securities with significant levels of unrealized capital appreciation and, within that category, further favors securities that are the subject of a publicly announced takeout transaction pursuant to which each party thereto has executed a binding transaction agreement and in which there is no pending litigation challenging the completion of the transaction. Any additional remainder in value owed to you between such securities and Fund shares that you submitted for redemption would be paid to you in cash. The ad hoc committee of independent Board members also has the authority to reject a redemption in kind, and require a cash redemption.

Shareholders would be paid in portfolio securities without their prior consent or request only in instances where the ad hoc committee of independent Board members believes that it would be in the Fund's best interest not to pay the redemption proceeds in cash. A redemption in kind would be a taxable event to you on which you would realize a capital gain or capital loss on your shares redeemed. Additionally, you may incur brokerage costs in converting any of the securities received to cash. The foregoing considerations apply in both normal and stressed market considerations. Redemptions in kind by ReFlow are subject to the procedures described in the section titled "Investment Objectives, Investment Strategies, and Related Risks — ReFlow Liquidity Program." Please see "Redemption of Shares" in the SAI for additional information.

EXCHANGE OF SHARES

You can exchange shares of the Fund for shares of the same or similar class of certain other funds managed by the Adviser or its affiliates based on their relative NAVs at the time of exchange. To obtain a list of the funds whose shares you may acquire through an exchange, call 800-GABELLI (800-422-3554) or contact your broker. Class C shares will continue to age from the date of the original purchase of such shares and will assume the CDSC rate such shares had at the time of exchange. You may also exchange your shares for shares of the same class of a money market fund managed by the Adviser or its affiliates, without imposition of any CDSC at the time of exchange. Upon subsequent redemption from such money market fund or the Fund (after re-exchange into the Fund), such shares will be subject to the CDSC calculated by excluding the time such shares were held in a Gabelli money market fund. The Fund may impose limitations on, or terminate, the exchange privilege with respect to any investor at any time. You will be given notice at least sixty days prior to any material change in the exchange privilege. An exchange of shares is a taxable event to you on which you would realize a capital gain or capital loss (subject to possible limitations of deductibility).

In effecting an exchange:

- you must meet the minimum investment requirements for the fund whose shares you wish to purchase through exchange;
- if you are exchanging into a fund with a higher sales charge, you must pay the difference at the time of the exchange;
- if you are exchanging from a fund with a redemption fee applicable to the redemption involved in your exchange, you must pay the redemption fee at the time of the exchange;
- you will realize a taxable gain or loss because the exchange is treated as a sale for federal income tax purposes;
- you should read the prospectus of the fund whose shares you are purchasing through exchange. Call 800-GABELLI (800-422-3554), or visit our website at www.gabelli.com to obtain the prospectus; and
- you should be aware that a financial intermediary may charge a fee for handling an exchange for you.

You may exchange shares through the Distributor, directly through the Transfer Agent, or through a financial intermediary that has entered into the appropriate selling agreement with the Distributor.

- **Exchange by Telephone.** You may give exchange instructions by telephone by calling 800-GABELLI (800-422-3554). You may not exchange shares by telephone if you hold share certificates.
- **Exchange by Mail.** You may send a written request for exchanges to: **The Gabelli Funds, P.O. Box 219204, Kansas City, MO 64121-9204.** Your letter should state your name, your account number, the dollar amount or number of shares you wish to exchange, the name and class of the fund(s) whose shares you wish to exchange, and the name of the fund(s) whose shares you wish to acquire.
- **Exchange through the Internet.** You may also give exchange instructions via the Internet at www.gabelli.com. The Fund may impose limitations from time to time on Internet exchanges.

Your financial intermediary may charge you a processing fee for assisting you in purchasing or redeeming shares of the Fund. This charge is set by your financial intermediary and does not benefit the Fund, the Distributor, or the Adviser in any way. It would be in addition to the sales charges and other costs, if any, described in this prospectus and must be disclosed to you by your broker-dealer or other financial intermediary.

PRICING OF FUND SHARES

The Fund's NAV is calculated separately for each class of shares on each Business Day. The NYSE is open Monday through Friday, but currently is scheduled to be closed on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day and on the preceding Friday or subsequent Monday when a holiday falls on a Saturday or Sunday, respectively.

The Fund's NAV is determined as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern Time. The NAV of each class is computed by dividing the value of the Fund's net assets, i.e., the value of its securities and other assets less its liabilities, including expenses payable or accrued but excluding capital stock and surplus attributable to the applicable class of shares by the total number of shares of such class outstanding at the time the determination is made. The price of Fund shares for the purpose of purchase and redemption orders will be based upon the calculation of the NAV of each class next made after the time as of which the purchase or redemption order is received in proper form. Because the Fund may invest in foreign securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund's shares may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Equity securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market where trades are reported contemporaneously and for which market quotations are readily available are valued at the last quoted sale or a market's official closing price at the close of the exchange's or other market's regular trading hours, as of or prior to the time and day as of which such value is being determined. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market as determined by the Adviser. If there has been no sale on the day the valuation is made, the securities are valued at the mean of the closing bid

and ask prices on the principal market for such security on such day. If no ask prices are quoted on such day, then the security is valued at the closing bid price on the principal market for such security on such day. If no bid or ask prices are quoted on such day, the Fund's accounting agent will notify the Adviser and the security will be valued based on written or standing instructions from the Adviser.

Equity securities that are primarily traded on foreign markets, except for those that trade primarily in Latin America or South America, are generally valued at the preceding closing values of such securities on their respective exchanges. Equity securities which are primarily traded in Latin American or South American markets are valued each day approximately at the time of the close of regular trading on the NYSE as though such time were the close of trading on such Latin American or South American market and such Latin American or South American market were a U.S. market. When the NYSE is open, but the foreign market on which an equity security primarily trades is closed, such as for a foreign national holiday, the security will generally be valued at the last available closing value (subject to the Fair Value Procedures adopted pursuant to Rule 2a-5 under the 1940 Act) using the prevailing exchange rate as described below. If some event occurs affecting or likely to affect the price of an equity security or group of equity securities to a significant extent including but not limited to material market movement, changes in market conditions after a foreign market closes, but prior to 4:00 p.m. Eastern Time, or a company development, such as a material business development, dividend declaration, stock split or rights offering, and if adequate and timely information relating to the event is not available or is not taken into account by the pricing service, the Adviser should review the pricing furnished by the pricing service to determine whether it is appropriate in the circumstances. In such case, the Adviser will obtain market quotations from another source or will make a fair value determination of such securities using other appropriate value measurements. If the primary market for such an equity security suspends or limits trading or price movements, whether for the market as a whole or the particular security, and trading also occurs on a secondary market which has not suspended or limited trading or price movement, valuation will be based on information from the secondary market provided by the Adviser. If all markets on which such an equity security have suspended trading, the Adviser will fair value such security as provided above. Information that becomes known after the close of the NYSE, normally 4:00 p.m. Eastern time, on any business day may be assessed in determining NAV per share after the time of receipt of the information, but will not be used to retroactively adjust the price of the security determined earlier or on a prior day.

Initial public offering securities are initially valued at cost. Upon commencement of trading, these securities are valued like any other equity security.

Debt obligations (including convertible debt) for which market quotations are readily available are valued at the average of the latest bid and ask prices. If there were no ask prices quoted on such day, the security is valued using the closing bid price. Such debt obligations are valued through prices provided by a pricing service overseen by the Adviser.

Assets and liabilities denominated in foreign currencies will be translated into U.S. dollars at the prevailing exchange rates as provided by an appropriate pricing service. Forward currency exchange contracts will be valued using interpolated forward exchange rates. Prevailing foreign exchange rates and forward currency foreign exchange rates may generally be obtained on a consistent basis at approximately 11:00 a.m. Eastern time, which approximates the close of the London Exchange. As available and as provided by an appropriate pricing service, translation of foreign security and currency market values will also occur with the use of foreign exchange rates obtained at the close of the NYSE, normally 4:00 p.m. Eastern time.

Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Over-the-counter futures and options on futures for which market quotations are readily available will be valued by quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and other assets for which market quotations are not readily available are fair valued as determined by the Adviser, as Valuation Designee, pursuant to Fair Value Procedures adopted pursuant to Rule 2a-5 under the 1940 Act. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

DIVIDENDS AND DISTRIBUTIONS

The Fund intends to pay dividends, if any, monthly, and to distribute, at least annually, substantially all net capital gain. You may have dividends and/or capital gain distributions that are declared by the Fund reinvested automatically at NAV in additional shares of the Fund. You will make an election to receive dividends and distributions in cash or Fund shares at the time you first purchase your shares. You may change this election by notifying the Fund or your financial intermediary in writing at any time prior to the record date for a particular dividend or distribution. There are no sales or other charges by the Fund in connection with the reinvestment of dividends and capital gain distributions. Shares purchased through dividend reinvestment will receive a price without sales charge based on the NAV on the reinvestment date, which is typically the date dividends are paid to shareholders. There can be no assurance that the Fund will realize any capital gains or other income with which to pay dividends and distributions. Distributions are taxable to you whether received in cash or additional shares. This policy may be changed by the Board at any time. To the extent that distributions are in excess of the Fund's current and accumulated earnings and profits, the distributions will be treated as a non-taxable return of capital. A dividend or capital gain distribution paid on shares purchased shortly before the record date for that dividend or distribution will generally be subject to income taxes even though the dividend or capital gain distribution represents, in substance, a partial return of capital. Dividends sourced from paid-in capital should not be considered as dividend yield or the total return from an investment in the Fund. Dividends and distributions are taxable whether paid in cash or reinvested in additional shares. Dividends and distributions may be different for different classes of shares of the Fund.

Fixed Distribution Policy Risk. The Fund generally seeks to distribute a fixed amount each month to each class of shares, which amount may differ from class to class (the "Fixed Distribution Policy"). Section 19(b) of the 1940 Act and Rule 19b-1 promulgated thereunder limit the number of distributions of long-term capital gain a fund may make in any particular year. Depending on the circumstances, in order to remain in compliance with Rule 19b-1, the operation of the Fund's monthly Fixed Distribution Policy may require shareholders to pay tax on distributions at a higher rate than they otherwise would experience or

may require them to make special tax filings to offset additional tax payments made by the Fund. In extreme circumstances, compliance with Rule 19b-1 could have a material adverse effect on the Fund's investment program.

Rule 19b-1 contains a mechanism for a fund to request relief from the SEC to spread its long-term capital gain over up to all of its distributions in the event of unforeseen circumstances. Due to a very high level of net redemptions in 2015 compared to prior years while having very large amounts of unrealized long-term capital gain and very small amounts of unrealized long-term capital loss, in order to avert adverse consequences for the Fund and its shareholders, the Fund sought and received such SEC relief for 2015. However, the Fund believes it is unlikely to be able to obtain such relief in similar circumstances in the future. Accordingly, the Fund will monitor its distribution, estimated sources of income and tax situation carefully and may modify its Fixed Distribution Policy from time to time in an effort to reduce the likelihood of material adverse impacts in the future.

TAX INFORMATION

The Fund expects that distributions will consist primarily of investment company taxable income and net capital gain. Dividends out of investment company taxable income (including distributions of net short term capital gains, i.e., gains from securities held by the Fund for one year or less) are taxable to you as ordinary income if you are a U.S. shareholder, except that certain qualified dividends may be eligible for a reduced rate (provided certain holding period and other requirements are met). Properly reported distributions of net capital gain, i.e., net long term capital gains minus net short term capital loss ("Capital Gain Dividends"), are taxable to you at long term capital gain rates no matter how long you have owned your shares. To the extent distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. Currently, distributions are expected to include return of capital distributions, which are distributions in excess of current and accumulated earnings and profits. A return of capital distribution is tax-free to the extent of a shareholder's basis in its Fund shares and reduces the shareholder's basis to that extent. After that basis has been reduced to zero, any excess return of capital distributions will generally be treated as capital gain. The current policy of paying a monthly distribution in excess of net investment income, together with 1940 Act limitations on the Fund's ability to designate Capital Gain Dividends, may restrict the Fund's ability to pay out all of its net capital gains as a Capital Gain Dividend. The Fund's distributions, whether you receive them in cash or reinvest them in additional shares of the Fund, generally will be subject to federal and, if applicable, state and local taxes. A redemption of Fund shares or an exchange of the Fund's shares for shares of another fund will be treated for tax purposes as a sale of the Fund's shares, and any gain you realize on such a transaction generally will be taxable. Foreign shareholders may be subject to a federal withholding tax.

A dividend declared by the Fund in October, November, or December and paid during January of the following year may in certain circumstances be treated as paid in December for tax purposes.

After the end of each year, the Fund will provide you with the information regarding any shares you redeemed and the federal tax status of any dividends or distributions you received during the previous year.

Certain non-corporate U.S. shareholders whose income exceeds certain thresholds will be required to pay a 3.8% Medicare tax on dividend and other investment income, including dividends received from the Fund and capital gains from the sale or other disposition of the Fund's stock.

By law, the Fund must withhold, as backup withholding, a percentage of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, or if the Internal Revenue Service instructs the Fund to do so.

This summary of tax consequences is intended for general information only and is subject to change by legislative, judicial, or administrative action, and any such change may be retroactive. A more complete discussion of the tax rules applicable to you and the Fund can be found in the SAI that is incorporated by reference into this prospectus. You should consult a tax adviser concerning the tax consequences of your investment in the Fund.

MAILINGS AND E-DELIVERY TO SHAREHOLDERS

In our continuing efforts to reduce duplicative mail and Fund expenses, we currently send a single copy of prospectuses and shareholder reports to your household even if more than one member in your household owns the same fund or funds described in the prospectus or report. Additional copies of our prospectuses and reports may be obtained by calling 800-GABELLI (800-422-3554). If you do not want us to continue to consolidate your fund mailings and would prefer to receive separate mailings at any time in the future, please call us at the telephone number above and we shall resume separate mailings, in accordance with your instructions within thirty days of your request. The Fund offers electronic delivery of Fund documents. Direct shareholders of the Fund can elect to receive the Fund's annual, semiannual, and quarterly reports, as well as manager commentaries and prospectuses via e-delivery. For more information or to sign up for e-delivery, please visit the Fund's website at www.gabelli.com. Shareholders who purchased shares of the Fund through a financial intermediary should contact their financial intermediary to sign up for e-delivery of Fund documents, if available.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the financial performance of the Fund for the past five fiscal years of the Fund's Class AAA, Class A, Class C, and Class I shares. The total returns in the table represent the percentage amount that an investor would have earned or lost on an investment in the designated class of shares (assuming reinvestment of all distributions). This information has been audited by Ernst & Young LLP, independent registered public accounting firm, whose report, along with the Fund's financial statements and related notes, is included in the Fund's Form N-CSR, which is available upon request.

* On March 25, 2024, Class C1 shares converted into Class C shares. See Note 8.

† Total return represents aggregate total return of a hypothetical investment at the beginning of the year and sold at the end of the year including reinvestment of distributions and does not reflect the applicable sales charges.

(a) Per share amounts have been calculated using the average shares outstanding method.

(b) Amount represents less than \$0.005 per share.

(c) The Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. For all years presented, there was minimal impact on the expense ratios.

(d) Ratio of operating expenses includes advisory fee reduction on unsupervised assets. For the years ended December 31, 2021 and 2020, there was no material impact on the expense ratios.

(e) Annualized.

APPENDIX A

Sales Charge Reductions and Waivers Available through Certain Intermediaries

Specific intermediaries may have different policies and procedures regarding the availability of front-end sales load waivers or CDSC waivers, which are discussed below. In all instances, it is the purchaser's responsibility to notify the Fund or the purchaser's financial intermediary at the time of purchase of any relationship or other facts qualifying the purchaser for sales charge reductions or waivers. **Not all intermediaries will offer the same reductions and waivers to persons purchasing shares of the Fund.** In order to receive these reductions or waivers, shareholders will have to purchase Fund shares through an intermediary offering such reductions or waivers or directly from the Fund if the Fund offers such reductions or waivers. Please see the section entitled "Classes of Shares" for more information on sales charge reductions and waivers available for different classes of shares that are available for purchase directly from the Fund. The specific sales charge waivers and/or discounts for the intermediaries below are implemented and solely administered by the particular intermediary. Please contact that intermediary to ensure that you understand the steps that you must take to qualify for available waivers and discounts.

The information in this Appendix A is part of, and incorporated into, the Fund's prospectus.

Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill Lynch")

Purchases or sales of front-end (i.e. Class A) or level-load (i.e., Class C) mutual fund shares through a Merrill platform or account will be eligible only for the following sales load waivers (front-end, contingent deferred, or back-end waivers) and discounts, which differ from those disclosed elsewhere in this Fund's prospectus. Purchasers will have to buy mutual fund shares directly from the mutual fund company or through another intermediary to be eligible for waivers or discounts not listed below.

It is the client's responsibility to notify Merrill at the time of purchase or sale of any relationship or other facts that qualify the transaction for a waiver or discount. A Merrill representative may ask for reasonable documentation of such facts and Merrill may condition the granting of a waiver or discount on the timely receipt of such documentation.

Additional information on waivers and discounts is available in the Merrill Sales Load Waiver and Discounts Supplement (the "Merrill SLWD Supplement") and in the Mutual Fund Investing at Merrill pamphlet at ml.com/funds. Clients are encouraged to review these documents and speak with their financial advisor to determine whether a transaction is eligible for a waiver or discount.

Front-end Load Waivers Available at Merrill
Shares of mutual funds available for purchase by employer-sponsored retirement, deferred compensation, and employee benefit plans (including health savings accounts) and trusts used to fund those plans provided the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans
Shares purchased through a Merrill investment advisory program
Brokerage class shares exchanged from advisory class shares due to the holdings moving from a Merrill investment advisory program to a Merrill brokerage account
Shares purchased through the Merrill Edge Self-Directed platform
Shares purchased through the systematic reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same mutual fund in the same account

Shares exchanged from level-load shares to front-end load shares of the same mutual fund in accordance with the description in the Merrill SLWD Supplement
Shares purchased by eligible employees of Merrill or its affiliates and their family members who purchase shares in accounts within the employee's Merrill Household (as defined in the Merrill SLWD Supplement)
Shares purchased by eligible persons associated with the fund as defined in this prospectus (e.g. the fund's officers or trustees)
Shares purchased from the proceeds of a mutual fund redemption in front-end load shares provided (1) the repurchase is in a mutual fund within the same fund family; (2) the repurchase occurs within 90 calendar days from the redemption trade date, and (3) the redemption and purchase occur in the same account (known as Rights of Reinstatement). Automated transactions (i.e. systematic purchases and withdrawals) and purchases made after shares are automatically sold to pay Merrill's account maintenance fees are not eligible for Rights of Reinstatement
Contingent Deferred Sales Charge ("CDSC") Waivers on Front-end, Back-end, and Level Load Shares Available at Merrill
Shares sold due to the client's death or disability (as defined by Internal Revenue Code Section 22e(3))
Shares sold pursuant to a systematic withdrawal program subject to Merrill's maximum systematic withdrawal limits as described in the Merrill SLWD Supplement
Shares sold due to return of excess contributions from an IRA account
Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the investor reaching the qualified age based on applicable IRS regulation
Front-end or level-load shares held in commission-based, non-taxable retirement brokerage accounts (e.g. traditional, Roth, rollover, SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans) that are transferred to fee-based accounts or platforms and exchanged for a lower cost share class of the same mutual fund
Front-end Load Discounts Available at Merrill: Breakpoints, Rights of Accumulation & Letters of Intent
Breakpoint discounts, as described in this prospectus, where the sales load is at or below the maximum sales load that Merrill permits to be assessed to a front-end load purchase, as described in the Merrill SLWD Supplement
Rights of Accumulation (ROA), as described in the Merrill SLWD Supplement, which entitle clients to breakpoint discounts based on the aggregated holdings of mutual fund family assets held in accounts in their Merrill Household
Letters of Intent (LOI), which allow for breakpoint discounts on eligible new purchases based on anticipated future eligible purchases within a fund family at Merrill, in accounts within your Merrill Household, as further described in the Merrill SLWD Supplement

Ameriprise Financial

Front-End Sales Charge Reductions on Class A Shares Purchased through Ameriprise Financial:

Shareholders purchasing Class A shares of the Fund through an Ameriprise Financial platform or account are eligible only for the following sales charge reductions, which may differ from those disclosed elsewhere in this prospectus or the SAI. Such shareholders can reduce their initial sales charge on the purchase of Class A shares as follows:

- *Transaction size breakpoints*, as described in this prospectus or the SAI.
- *Rights of accumulation (ROA)*, as described in this prospectus or the SAI.
- *Letter of intent*, as described in this prospectus or the SAI.

Front-End Sales Charge Waivers on Class A Shares Purchased through Ameriprise Financial:

Shareholders purchasing Class A shares of the Fund through an Ameriprise Financial platform or account are eligible only for the following sales charge waivers, which may differ from those disclosed elsewhere in this prospectus or the SAI. Such shareholders may purchase Class A shares at NAV without payment of a sales charge as follows:

- Shares purchased by employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.
- Shares purchased through reinvestment of capital gains and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the same fund family).
- Shares exchanged from Class C shares of the same fund in the month of or following the seven-year anniversary of the purchase date. To the extent that this prospectus elsewhere provides for a waiver with respect to such shares following a shorter holding period, that waiver will apply to exchanges following such shorter period. To the extent that this prospectus elsewhere provides for a waiver with respect to exchanges of Class C shares for load waived shares, that waiver will also apply to such exchanges.
- Shares purchased by employees and registered representatives of Ameriprise Financial or its affiliates and their immediate family members.
- Shares purchased by or through qualified accounts (including IRAs, Coverdell Education Savings Accounts, 401(k)s, 403(b) TSCAs subject to ERISA and defined benefit plans) that are held by a covered family member, defined as an Ameriprise Financial advisor and/or the advisor's spouse, advisor's lineal ascendant (mother, father, grandmother, grandfather, great grandmother, great grandfather), advisor's lineal descendant (son, step-son, daughter, step-daughter, grandson, granddaughter, great grandson, great granddaughter) or any spouse of a covered family member who is a lineal descendant.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (i.e. Rights of Reinstatement).

CDSC Waivers on Class A and C Shares Purchased through Ameriprise Financial:

Fund shares purchased through an Ameriprise Financial platform or account are eligible only for the following CDSC waivers, which may differ from those disclosed elsewhere in this prospectus or the SAI:

- Redemptions due to death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in this prospectus or the SAI.
- Redemptions made in connection with a return of excess contributions from an IRA account.
- Shares purchased through a Right of Reinstatement (as defined above).
- Redemptions made as part of a required minimum distribution for IRA and retirement accounts pursuant to the Internal Revenue Code.

Morgan Stanley Wealth Management

Shareholders purchasing Fund shares through a Morgan Stanley Wealth Management transactional brokerage account will be eligible only for the following front-end sales charge waivers with respect to Class A shares, which may differ from and may be more limited than those disclosed elsewhere in this Fund's Prospectus or SAI.

- Employer-sponsored retirement plans (e.g., 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans). For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs, SAR-SEPs or Keogh plans.
- Morgan Stanley employee and employee-related accounts according to Morgan Stanley's account linking rules.
- Shares purchased through reinvestment of dividends and capital gains distributions when purchasing shares of the same fund.
- Shares purchased through a Morgan Stanley self-directed brokerage account.
- Class C (i.e., level-load) shares that are no longer subject to a contingent deferred sales charge and are converted to Class A shares of the same fund pursuant to Morgan Stanley Wealth Management's share class conversion program.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (i) the repurchase occurs within 90 days following the redemption, (ii) the redemption and purchase occur in the same account, and (iii) redeemed shares were subject to a front-end or deferred sales charge.

Raymond James & Associates, Inc., Raymond James Financial Services, Inc. and each entity's affiliates ("Raymond James")

Shareholders purchasing fund shares through a Raymond James platform or account, or through an introducing broker-dealer or independent registered investment adviser for which Raymond James provides trade execution, clearance, and/or custody services, will be eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this fund's prospectus or SAI.

Front-end sales load waivers on Class A shares available at Raymond James

- Shares purchased in an investment advisory program.
- Shares purchased within the same fund family through a systematic reinvestment of capital gains and dividend distributions.
- Employees and registered representatives of Raymond James or its affiliates and their family members as designated by Raymond James.
- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same account, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Reinstatement).

- A shareholder in the Fund's Class C shares will have their shares converted at NAV to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of Raymond James.

CDSC Waivers on Classes A and C shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable IRS regulations as described in the fund's prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: breakpoints, rights of accumulation, and/or letters of intent

- Breakpoints as described in this prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at Raymond James. Eligible fund family assets not held at Raymond James may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a fund family, over a 13-month time period. Eligible fund family assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial advisor about such assets.

Oppenheimer & Co. Inc. ("OPCO")

Shareholders purchasing Fund shares through an OPCO platform or account are eligible only for the following load waivers (front-end sales charge waivers and contingent deferred, or back-end, sales charge waivers) and discounts, which may differ from those disclosed elsewhere in this Fund's prospectus or SAI.

Front-end Sales Load Waivers on Class A Shares available at OPCO

- Employer-sponsored retirement, deferred compensation and employee benefit plans (including health savings accounts) and trusts used to fund those plans, provided that the shares are not held in a commission-based brokerage account and shares are held for the benefit of the plan.
- Shares purchased by or through a 529 Plan.
- Shares purchased through a OPCO affiliated investment advisory program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund (but not any other fund within the fund family).

- Shares purchased from the proceeds of redemptions within the same fund family, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same amount, and (3) redeemed shares were subject to a front-end or deferred sales load (known as Rights of Restatement).
- A shareholder in the Fund's Class C shares will have their shares converted at NAV to Class A shares (or the appropriate share class) of the Fund if the shares are no longer subject to a CDSC and the conversion is in line with the policies and procedures of OPCO.
- Employees and registered representatives of OPCO or its affiliates and their family members.
- Directors or Trustees of the Fund, and employees of the Fund's investment adviser or any of its affiliates, as described in this prospectus.

CDSC Waivers on A, B and C Shares available at OPCO

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus.
- Return of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching age 70½ as described in the prospectus.
- Shares sold to pay OPCO fees but only if the transaction is initiated by OPCO.
- Shares acquired through a right of reinstatement.

Front-end load Discounts Available at OPCO: Breakpoints, Rights of Accumulation & Letters of Intent

- Breakpoints as described in this prospectus.
- Rights of Accumulation (ROA) which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser's household at OPCO. Eligible fund family assets not held at OPCO may be included in the ROA calculation only if the shareholder notifies his or her financial advisor about such assets.

Robert W. Baird & Co. ("Baird"):

Shareholders purchasing fund shares through a Baird platform or account are only be eligible for the following sales charge waivers (front-end sales charge waivers and CDSC waivers) and discounts, which may differ from those disclosed elsewhere in this prospectus or the SAI:

Front-End Sales Charge Waivers on Investors A-shares Available at Baird

- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment when purchasing shares of the same fund.
- Shares purchased by employees and registered representatives of Baird or its affiliate and their family members as designated by Baird.

- Shares purchased using the proceeds of redemptions from a Gabelli Fund, provided (1) the repurchase occurs within 90 days following the redemption, (2) the redemption and purchase occur in the same accounts, and (3) redeemed shares were subject to a front-end or deferred sales charge (known as rights of reinstatement).
- A shareholder in the Fund's Class C shares will have their shares converted at net asset value to Class A shares of the same fund if the shares are no longer subject to CDSC and the conversion is in line with the policies and procedures of Baird.
- Employer-sponsored retirement plans or charitable accounts in a transactional brokerage account at Baird, including 401(k) plans, 457 plans, employer-sponsored 403(b) plans, profit sharing and money purchase pension plans and defined benefit plans. For purposes of this provision, employer-sponsored retirement plans do not include SEP IRAs, Simple IRAs or SAR-SEPs.

CDSC Waivers on Class A and C shares Available at Baird

- Shares sold due to death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the Fund's prospectus.
- Shares bought due to returns of excess contributions from an IRA Account.
- Shares sold as part of a required minimum distribution for IRA and retirement accounts due to the shareholder reaching the qualified age based on applicable Internal Revenue Service regulations as described in the Fund's prospectus.
- Shares sold to pay Baird fees but only if the transaction is initiated by Baird.
- Shares acquired through a right of reinstatement.

Front-End Sales Charge Discounts Available at Baird: Breakpoints and/or Rights of Accumulations

- Breakpoints as described in this prospectus.
- Rights of accumulations which entitles shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of Gabelli Fund assets held by accounts within the purchaser's household at Baird. Eligible Gabelli Fund assets not held at Baird may be included in the rights of accumulations calculation only if the shareholder notifies his or her financial advisor about such assets.
- Letters of Intent (LOI) allow for breakpoint discounts based on anticipated purchases of Gabelli Funds through Baird, over a 13-month period of time.
