What were the Fund costs for the last six months?

(based on a hypothetical \$10,000 investment)

Class Name	Costs of a \$10k Investment	Costs Paid as a % of a \$10k Investment
Keeley Gabelli Small Cap Dividend Fund - Class A	\$67	1.29%

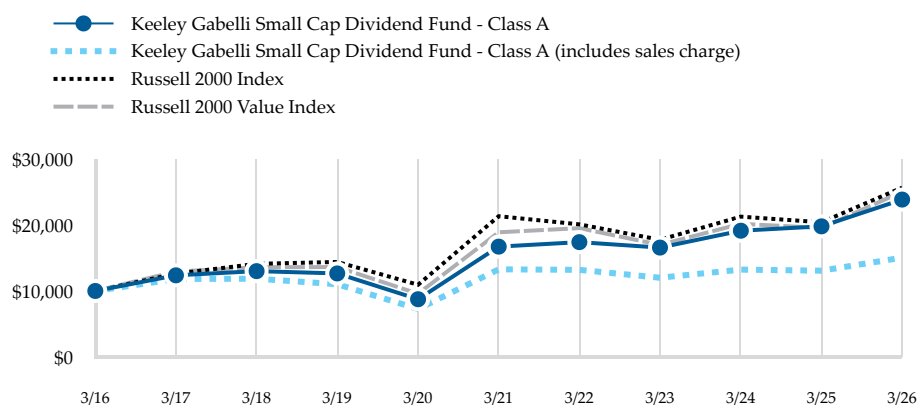

How did the Fund perform?

For the six month period ended March 31, 2026, the Keeley Small Cap Dividend Fund outperformed its broad-based benchmark, the Russell 2000 Index, and underperformed its comparative benchmark, the Russell 2000 Value Index. A small overweight in the Energy sector and underweights in the Health Care and Consumer Discretionary sectors helped relative performance. This was partly offset by a slight underweight in the Technology sector. Contributors to the portfolio included TechnipFMC, International Seaways, Inc., and OutFront Media Inc. Detractors from performance included CraneNEXT Co., Alight Inc., and Perrigo Co. plc.

How has the Fund performed over the past 10 years?

The performance chart reflects a hypothetical \$10,000 investment in the class of shares noted (assuming the maximum sales charge) compared to an appropriate broad-based securities market index and more narrowly based indexes that reflect the market sectors in which the Fund invests over a 10-year period. The chart uses total return NAV performance and assumes reinvestment of dividends and capital gains distribution. Fund expenses, including 12b-1 fees, management fees and other expenses were deducted.
