## TAX EFFICIENCY

Investors in the Gabelli Opportunities in Live and Sports ETF can benefit from the same tax dynamics as traditional ETFs through direct fund transactions that are typically done in-kind with Authorized Participants (APs). These cashless transactions are not taxable events and therefore may help mitigate the yearly capital gain distributions.

## COST EFFECTIVENESS

Like traditional ETFs, the Fund can reduce operational costs from the transfer agent and other custody fees. Also, since the buying and selling of fund shares happens outside of the structure, internal costs can be lower. This is achieved through the ETF creation/redemption process.

## INTRADAY TRADING & REAL TIME PRICING

Similar to other listed stocks and ETFs, GOLS will trade intraday in the marketplace but with additional clarity on real-time pricing.

## IMPORTANT DISCLOSURES

- Shares of this ETF are bought and sold at market price (not NAV) and are not individually redeemed from the fund.
- Buying or selling ETF shares may require additional fees such as brokerage commissions, which will reduce returns.
- These additional risks may be even greater in bad or uncertain market conditions.
