The Gabelli Utility Trust
Semiannual Financial Statements — June 30, 2026

(Y)our Portfolio Management Team

To Our Shareholders,

For the six months ended June 30, 2026, the net asset value (NAV) total return of The Gabelli Utility Trust (the Fund) was 13.4%, compared with a total return of 7.7% for the Standard & Poor's (S&P) 500 Utilities Index. The total return for the Fund's publicly traded shares was 15.0%. The Fund's NAV per share was $3.14, while the price of the publicly traded shares closed at $6.59 on the New York Stock Exchange (NYSE). See page 3 for additional performance information.

Enclosed are the financial statements, including the schedule of investments, as of June 30, 2026.

Investment Objective (Unaudited)

The Gabelli Utility Trust is a diversified, closed-end management investment company whose primary objectives are long term growth of capital and income. The Fund will invest in companies that provide products, services, or equipment for the generation or distribution of electricity, gas, and water. Additionally, the Fund will invest in companies in telecommunications services or infrastructure operations.

As permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semiannual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website (www.gabelli.com), and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. To elect to receive all future reports on paper free of charge, please contact your financial intermediary, or, if you invest directly with the Fund, you may call 800-422-3554 or send an email request to info@gabelli.com.

Performance Discussion (Unaudited)

During the first half of 2026, utilities gave back nearly 10% as the Iran conflict drove oil prices higher, fueled inflation concerns, and lifted Treasury yields. The sector later recovered as tensions eased and interest rates stabilized. Investor sentiment swung sharply, with capital rotating between defensive utilities and higher-growth technology stocks as geopolitical developments evolved.

Globally, disruptions to the Strait of Hormuz have constrained roughly a quarter of global LNG flows, driving EU gas and power prices higher, though still below 2022 peaks. Despite macro volatility, U.S. utilities continue to deliver solid earnings growth, with most guiding to 6%–8% EPS CAGR or better, supported by rising electric demand, steady rate base expansion, and accelerating data center development. Utilities also expect to invest record amounts of capital, supporting rapid rate base expansion and above-average growth through at least 2032.

Data center development is facing growing public and political resistance over rising electric bills, water consumption, land use, and grid reliability. Utility affordability has become a more prominent political issue, particularly in higher-cost non-regulated markets where capacity prices have risen sharply and power supply growth has lagged demand. As a result, some utilities may face more challenging regulatory environments and lower utility returns. Elsewhere, data center development continues to accelerate, reshaping load forecasts and utility growth expectations. Large-load tariffs and long-term contracts increasingly require data centers to fund the infrastructure needed to serve their electricity demand.

Contributors to performance included Anterix Inc. (1.3% of net assets as of June 30, 2026), Millicom International Cellular SA (0.9%), and ONEOK Inc. (4.2%).

Detractors from the portfolio included Deutsche Telekom AG (1.5%), Constellation Energy Corp. (1.6%), and Idaho Strategic Resources Inc. (No Longer Held).

Thank you for your investment in The Gabelli Utility Trust.

We appreciate your confidence and trust.

The views expressed reflect the opinions of the Fund's portfolio managers and Gabelli Funds, LLC, the Adviser, as of the date of this report and are subject to change without notice based on changes in market, economic, or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Comparative Results

Average Annual Returns through June 30, 2026 (a) (Unaudited)

	Six Months	1 Year	5 Year	10 Year	15 Year	20 Year	25 Year	Since Inception (7/9/99)
The Gabelli Utility Trust (GUT)								
NAV Total Return (b)	13.35%	21.96%	9.62%	7.39%	8.69%	8.46%	8.40%	8.71%
Investment Total Return (c)	14.97	25.89	7.76	11.01	10.34	9.19	8.88	9.61
S&P 500 Utilities Index	7.69	14.22	10.84	9.11	10.66	9.16	7.53	7.77
Lipper Utility Fund Average	8.16	14.47	10.56	8.68	9.38	8.50	7.72	7.29

(a) Performance returns for periods of less than one year are not annualized. Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. The Fund's use of leverage may magnify the volatility of net asset value changes versus funds that do not employ leverage. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. The S&P 500 Utilities Index is an unmanaged market capitalization weighted index of large capitalization stocks that may include facilities generation and transmission or distribution of electricity, gas, or water. The Lipper Utility Fund Average reflects the average performance of mutual funds classified in this particular category. Dividends are considered reinvested. You cannot invest directly in an index.

(b) Total returns and average annual returns reflect changes in the NAV per share, reinvestment of distributions at NAV on the ex-dividend date, and adjustments for rights offerings and are net of expenses. Since inception return is based on an initial NAV of $7.50.

(c) Total returns and average annual returns reflect changes in closing market values on the NYSE, reinvestment of distributions, and adjustments for rights offerings. Since inception return is based on an initial offering price of $7.50.

Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing.

Summary of Portfolio Holdings (Unaudited)

The following tables present portfolio holdings as a percent of net assets as of June 30, 2026:

The Gabelli Utility Trust

Electric Integrated	52.0%	Machinery	0.9%
Natural Gas Utilities	9.6%	Short Term Investment	0.9%
Natural Gas Integrated	8.9%	Communications Equipment	0.8%
Telecommunications	6.6%	Equipment and Supplies	0.5%
Water	5.8%	Environmental Services	0.4%
U.S. Government Obligations	5.0%	Oil	0.4%
Electric Transmission and Distribution	4.5%	Electronics	0.3%
Wireless Communications	4.2%	Building and Construction	0.1%

† Based on net asset value per share, adjusted for reinvestment of distributions at the net asset value per share on the ex-dividend dates and adjustments for the rights offering. Total return for a period of less than one year is not annualized.

†† Based on market value per share, adjusted for reinvestment of distributions at prices determined under the Fund's dividend reinvestment plan and adjustments for the rights offering. Total return for a period of less than one year is not annualized.

* Based on year to date book income. Amounts are subject to change and recharacterization at year end.

(a) Calculated based on average common shares outstanding on the record dates throughout the periods.

(b) Amount represents less than $0.005 per share.

(c) Annualized.

(d) The Fund received credits from a designated broker who agreed to pay certain Fund operating expenses. For the years ended December 31, 2025, 2024, 2023, 2022, and 2021, there was minimal impact on the expense ratios. For the six months ended June 30, 2026, the Fund did not have such credits.

(e) Ratio of operating expenses to average net assets including liquidation value of preferred shares before fee waived for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, 2022, and 2021 would have been 1.28%, 1.29%, 1.61%, 1.49%, 1.28%, and 1.26%, respectively.

(f) Ratio of operating expenses to average net assets including liquidation value of preferred shares net of advisory fee reduction for the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, and 2022, would have been 1.28%, 1.29%, 1.61%, 1.43%, and 1.22%, respectively.

(g) The Fund received credits from the custodian. For the six months ended June 30, 2026 and the years ended December 31, 2025, 2024, 2023, and 2022, there was minimal impact on the expense ratios.

(h) The ratio of operating expenses excluding interest, dividends and service fees on securities sold short, and offering costs to average net assets attributable to common shares for the year ended December 31, 2022 would have been 1.54%.

(i) On December 31, 2024, the Note matured at its stated principal value.

(j) Asset coverage is calculated by combining all series of preferred shares.

(k) The Fund redeemed and retired all its outstanding Series A Preferred Shares on January 31, 2022.

(l) Based on weekly prices.

(m) Asset coverage per share is calculated by combining all series of preferred shares.

(n) The Fund redeemed and retired all its outstanding Series B Preferred Shares on June 26, 2024.

(o) Actual number of shares outstanding is two.

(p) Since February 2008, the weekly auctions have failed. Holders that have submitted orders have not been able to sell any or all of their shares in the auction.

1. Organization. The Gabelli Utility Trust (the Fund) was organized on February 25, 1999 as a Delaware statutory trust. The Fund is a diversified closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund commenced investment operations on July 9, 1999.

The Fund's primary objective is long term growth of capital and income. The Fund will invest 80% of its assets, under normal market conditions, in common stocks and other securities of foreign and domestic companies involved in providing products, services, or equipment for (i) the generation or distribution of electricity, gas, and water and (ii) telecommunications services or infrastructure operations (the 80% Policy). The 80% Policy may be changed without shareholder approval. However, the Fund has adopted a policy to provide shareholders with notice at least sixty days prior to the implementation of any change in the 80% Policy.

Gabelli Funds, LLC (the Adviser), with its principal offices located at One Corporate Center, Rye, New York 10580-1422, serves as investment adviser to the Fund. The Adviser makes investment decisions for the Fund and continuously reviews and administers the Fund's investment program and manages the operations of the Fund under the general supervision of the Fund's Board of Directors (the Board).

2. Significant Accounting Policies. As an investment company, the Fund follows the investment company accounting and reporting guidance, which is part of U.S. generally accepted accounting principles (GAAP) that may require the use of management estimates and assumptions in the preparation of its financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. The Board has designated the Adviser as the valuation designee (Valuation Designee) under Rule 2a-5. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Valuation Designee so determines, by such other method as the Valuation Designee shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by the Adviser.

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Valuation Designee if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt obligations for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the securities are valued using the closing bid price, unless the Valuation Designee determines such amount does not reflect the security's fair value, in which case these securities will be fair valued as determined by the Valuation Designee. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded. OTC futures and options on futures for which market quotations are readily available will be valued by

quotations received from a pricing service or, if no quotations are available from a pricing service, by quotations obtained from one or more dealers in the instrument in question by the Adviser.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Valuation Designee. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

- Level 1 — unadjusted quoted prices in active markets for identical securities;
- Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and
- Level 3 — significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The summary of the Fund's investments in securities by inputs used to value the Fund's investments as of June 30, 2026 is as follows:

	Valuation Inputs		
	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Total Market Value at 06/30/26
INVESTMENTS IN SECURITIES:			
ASSETS (Market Value):			
Common Stocks (a)	$ 313,267,175	—	$ 313,267,175
Preferred Stocks (a)	206,055	—	206,055
U.S. Government Obligations	—	$ 14,151,369	14,151,369
Short Term Investment	—	2,445,476	2,445,476
TOTAL INVESTMENTS IN SECURITIES – ASSETS	$ 313,473,230	$ 16,596,845	$ 330,070,075

(a) Please refer to the Schedule of Investments for the industry classifications of these portfolio holdings.

General. The Fund uses recognized industry pricing services – approved by the Board and unaffiliated with the Adviser – to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed income securities. The data within these feeds are ultimately sourced from major stock exchanges and trading systems where these securities trade. The prices supplied by external sources are checked by obtaining quotations

or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common or preferred equities, warrants, options, rights, or fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. When fair valuing a security, factors to consider include recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These may include backtesting the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Derivative Financial Instruments. The Fund may engage in various portfolio investment strategies by investing in derivative financial instruments for the purposes of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in currencies options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

Collateral requirements differ by type of derivative. Collateral requirements are set by the broker or exchange clearing house for exchange traded derivatives, while collateral terms are contract specific for derivatives traded over-the-counter. Securities pledged to cover obligations of the Fund under derivative contracts are noted in the Schedule of Investments. Cash collateral, if any, pledged for the same purpose will be reported separately in the Statement of Assets and Liabilities.

The Fund's policy with respect to offsetting is that, absent an event of default by the counterparty or a termination of the agreement, the master agreement does not result in an offset of reported amounts of financial assets and financial liabilities in the Statement of Assets and Liabilities across transactions between the Fund and the applicable counterparty. Therefore the Fund reflects derivative assets and liabilities any related collateral gross on the statement of assets and liabilities. The enforceability of the right to offset may vary by jurisdiction.

The Fund's derivative contracts held at June 30, 2026, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Swap Agreements. The Fund may enter into equity contract for difference swap transactions for the purpose of increasing the income of the Fund. The use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an equity contract for difference swap, a set of future cash flows is exchanged between two counterparties. One of these cash flow streams will typically be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. Depending on the general state of short term interest rates and the returns on the Fund's portfolio securities at the time an equity contract for difference swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability in the Statement of Assets and Liabilities. The change in the value of swaps, including the accrual of periodic amounts of interest to be received or paid on swaps, is reported as unrealized gain or loss in the Statement of Operations. A realized gain or loss is recorded upon receipt or payment of a periodic payment or termination of swap agreements. At June 30, 2026, the Fund held no investments in equity contract for difference swap agreements.

Limitations on the Purchase and Sale of Futures Contracts, Certain Options, and Swaps. Subject to the guidelines of the Board, the Fund may engage in "commodity interest" transactions (generally, transactions in futures, certain options, certain currency transactions, and certain types of swaps) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the Commodity Futures Trading Commission (CFTC). Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (CEA), the Adviser has filed a notice of exemption from registration as a "commodity pool operator" with respect to the Fund. The Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA. In addition, certain trading restrictions are now applicable to the Fund which permit the Fund to engage in commodity interest transactions that include (i) "bona fide hedging" transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of the Fund's assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that the Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund's existing futures positions or swaps positions and option or swaption premiums would exceed 5% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund's commodity interest transactions would not exceed 100% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, the Fund is limited in its ability to invest in commodity futures, options, and certain types of swaps (including securities futures, broad based stock index futures, and financial futures contracts). As a result, in the future the Fund will be more limited in its ability to use these instruments than in the past, and these limitations may have a negative impact on the ability of the Adviser to manage the Fund, and on the Fund's performance.

Securities Sold Short. The Fund may enter into short sale transactions. Short selling involves selling securities that may or may not be owned and, at times, borrowing the same securities for delivery to the purchaser, with an obligation to replace such borrowed securities at a later date. The proceeds received from short sales are recorded as liabilities and the Fund records an unrealized gain or loss to the extent of the difference between the proceeds received and the value of an open short position on the day of determination. The Fund records a realized gain or loss when the short position is closed out. By entering into a short sale, the Fund bears the market risk of an unfavorable change in the price of the security sold short. Dividends on short sales are recorded as an expense by the Fund on the ex-dividend date and interest expense is recorded on the accrual basis. The broker retains collateral for the value of the open positions, which is adjusted periodically as the value of the position fluctuates. During the six months ended June 30, 2026 there were no short sales outstanding.

Investments in other Investment Companies. The Fund may invest, from time to time, in shares of other investment companies (or entities that would be considered investment companies but are excluded from the definition pursuant to certain exceptions under the 1940 Act) (the Acquired Funds) in accordance with the 1940 Act and related rules. Stockholders in the Fund would bear the pro rata portion of the periodic expenses of the Acquired Funds in addition to the Fund's expenses. For the six months ended June 30, 2026, the Fund's pro rata portion of the periodic expenses charged by the Acquired Funds was less than one basis point.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund is not subject to an independent limitation on the amount it may invest in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted

securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Board will monitor their liquidity. At June 30, 2026, the Fund did not hold any restricted securities.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on an accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method or amortized to earliest call date, if applicable. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as "Custodian fee credits." When cash balances are overdrawn, the Fund is charged an overdraft fee of 110% of the 90 day U.S. Treasury Bill rate on outstanding balances. This amount, if any, would be included in the Statement of Operations.

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

The Fund declares and pays monthly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the year. Distributions during the year may be made in excess of required distributions. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. Distributions sourced from paid-in capital should not be considered as dividend yield or the total return from an investment in the Fund. The Board will continue to monitor the Fund's distribution level, taking into consideration the Fund's NAV and the financial market environment. The Fund's distribution policy is subject to modification by the Board at any time.

Distributions to shareholders of the Fund's 5.375% Series C Cumulative Preferred Shares (Series C Preferred) are recorded on a daily basis and are determined as described in Note 7.

The tax character of distributions paid during the year ended December 31, 2025 was as follows:

	Common	Preferred
Distributions paid from:		
Ordinary income	$ 5,061,224	$ 2,565,640
Return of capital	48,121,495	–
Total distributions paid	$ 53,182,719	$ 2,565,640

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

The Fund is permitted to carry capital losses forward for an unlimited period. Capital losses that are carried forward will retain their character as either short term or long term capital losses. The Fund has a short term capital loss carryforward with no expiration of $2,537 and a long term capital loss carryforward with no expiration of $802,823.

The Fund utilized $6,616,611 of the capital loss carryforward for the year ended December 31, 2025.

The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2026:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Investments	$218,219,003	$115,829,887	$(3,978,813)	$111,851,072

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2026, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2026, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. The Fund's federal and state tax returns for the prior three fiscal years remain open, subject to examination. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

Recent Accounting Pronouncement. During the reporting period, the Fund adopted Accounting Standards Update 2023-09, Income Taxes (Topic 740)—Improvements to Income Tax Disclosures ("ASU 2023-09"). The amendment enhances income tax disclosures by requiring greater disclosure of income taxes paid by jurisdiction. During the reporting period, the Fund paid less than 1% in foreign or U.S. federal, state or local income taxes.

3. Investment Advisory Agreement and Other Transactions. The Fund has entered into an investment advisory agreement (the Advisory Agreement) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of its average weekly net assets including the liquidation value of the preferred shares. In accordance with the Advisory Agreement,

the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

During the six months ended June 30, 2026, the Fund held a position in an affiliated fund, Gabelli U.S. Treasury Money Market Fund, and the Adviser reduced its fee with respect to this security by $960.

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2026, other than short term securities, aggregated $5,496,080 and $24,033,123, respectively.

5. Transactions with Affiliates and Other Arrangements. During the six months ended June 30, 2026, the Fund paid $529 in brokerage commissions on security trades to G.research, LLC, an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. Under the sub-administration agreement with the Bank of New York Mellon, the fees paid include the cost of calculating the Fund's NAV. The Fund reimburses the Adviser for this service. During the six months ended June 30, 2026, the Fund accrued $22,500 in accounting fees in the Statement of Operations.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser). During the six months ended June 30, 2026, the Fund accrued $60,634 in payroll expenses in the Statement of Operations.

The Fund pays retainer and per meeting fees to Trustees not affiliated with the Adviser, plus specified amounts to the Lead Trustee and Audit Committee Chairman. Trustees are also reimbursed for out of pocket expenses incurred in attending meetings. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

6. Line of Credit. The Fund participates in an unsecured and uncommitted line of credit, which expires on April 9, 2027 and may be renewed annually, of up to $200,000,000 under which it may borrow up to one-third of its net assets from the bank for temporary borrowing purposes. Borrowings under this arrangement bear interest at a floating rate equal to the higher of the Overnight Federal Funds Rate plus 135 basis points or the Overnight Bank Funding Rate plus 135 basis points in effect on that day. This amount, if any, would be included in "Interest expense" in the Statement of Operations. During the six months ended June 30, 2026, there were no borrowings under the line of credit.

7. Capital. The Fund is authorized to issue an unlimited number of shares of beneficial interest (par value $0.001). The Board has authorized the repurchase of its common shares on the open market when the shares are trading at a discount of 10% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the six months ended June 30, 2026 and the year ended December 31, 2025, the Fund did not repurchase any common shares of beneficial interest in the open market.

Transactions in shares of beneficial interest were as follows:

	Six Months Ended June 30, 2026 (Unaudited)		Year Ended December 31, 2025	
	Shares	Amount	Shares	Amount
Net increase in net assets from common shares issued upon reinvestment of distributions	642,379	$ 3,785,451	1,381,090	$ 7,558,517

The Fund's Declaration of Trust, as amended, authorizes the issuance of an unlimited number of shares of $0.001 par value Preferred Shares. The Preferred Shares are senior to the common shares and result in the financial leveraging of the common shares. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on the Preferred Shares are cumulative. The Fund is required by the 1940 Act and by the Statement of Additional Information to meet certain asset coverage tests with respect to the Preferred Shares. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, Series C Preferred Shares at the redemption price of $25 per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on investment income and gains available to common shareholders.

The Fund may redeem at any time, in whole or in part, the Series C Preferred at its liquidation preference of $25. In addition, the Board has authorized the repurchase of the Series C Preferred in the open market at prices less than the $25 liquidation value per share. During the year ended December 31, 2025, the Fund repurchased and retired 57,422 shares of the Series C Preferred Shares in the open market at an investment of $1,324,317 and at an average discount of approximately 7.8% from its liquidation preference.

On October 16, 2023, the Fund completed an exchange offer (the Offer) under which owners of the Series B Preferred could exchange their Series B Preferred for newly issued promissory notes (the Notes) at the exchange ratio of $912 per $1,000 of liquidation preference of Series B Preferred validly tendered and not withdrawn pursuant to the Offer, and issued $20,477,094 principal amount of Notes for the 898 Series B Preferred validly tendered and not withdrawn. The Notes had an annual interest rate of 5.25%, and interest was paid monthly. The aggregate unpaid principal amount of the Notes, all accrued and unpaid interest, and all other amounts payable under the terms of the Notes were paid on December 31, 2025. The carrying value of the Note Payable approximates fair value. The Note Payable was classified as Level 2 in the fair value hierarchy. On June 26, 2024 the Fund redeemed all Series B Auction Rate Cumulative Preferred Shares at the redemption price of $25,000 per share. On December 31, 2024, the Note matured at its stated principal value.

On January 31, 2022, the Fund redeemed all Series A Preferred at the Redemption Price of $25.13671875 per share, which consisted of the liquidation preference of $25.00 plus $0.13671875 per share representing accumulated but unpaid dividends and distributions to the redemption date of January 31, 2022.

For Series B Preferred Shares, the dividend rates were typically set by an auction process held every seven days, and were typically expected to vary with short term interest rates. Since February 2008, the number of Series B Preferred Shares subject to bid orders by potential holders had been less than the number of shares of Series B sell orders. Holders that submitted sell orders had not been able to sell any or all of the Series B Preferred Shares for which they submitted sell orders. Therefore the weekly auctions that failed resulted in the dividend rate being the maximum rate.

Since December 31, 2021, the seven day ICE LIBOR rate ceased to be published and was no longer representative. Because the Series B Preferred Shares have no other effective alternative rate setting provision, a last resort fallback of fixing this LIBOR based reference rate at its last published rate applies. The last published seven day ICE LIBOR rate was 0.076%, which resulted in a maximum rate for Series B Preferred Shares of 2.076% for all failed auctions after December 31, 2021. In the absence of successful auctions that established dividend rates based on prevailing short term interest rates, this result could lead to divergent and unexpected economic results for the Fund and holders of the Series B Preferred Shares since the rates payable on the Series B Preferred Shares were no longer likely to be representative of prevailing market rates. On June 26, 2024, the Fund redeemed all outstanding Series B Preferred at the redemption price of $25,000 per share.

The following table summarizes Cumulative Preferred Shares information:

Series	Issue Date	Authorized	Number of Shares Outstanding at 6/30/2026	Net Proceeds	2026 Dividend Rate Range	Dividend Rate at 6/30/2026	Accrued Dividends at 6/30/2026
C 5.375%	May 31, 2016	2,000,000	1,892,779	$48,142,029	Fixed Rate	5.375%	$28,260

The holders of Preferred Shares generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common stock as a single class. The holders of Preferred Shares voting together as a single class also have the right currently to elect two Trustees and under certain circumstances are entitled to elect a majority of the Board of Trustees. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the preferred shares, voting as a single class, will be required to approve any plan of reorganization adversely affecting the preferred shares, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding preferred shares and a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

On March 10, 2022, the Fund distributed one transferable right for each of the 63,934,698 common shares outstanding on that date. Seven rights were required to purchase one additional common share at the subscription price of $5.50 per share. On April 20, 2022, the Fund issued 9,133,529 common shares receiving net proceeds of $49,849,194, after the deduction of offering expenses of $385,216. The NAV of the Fund increased by $0.16 per share on the day the additional shares were issued due to the additional shares being issued above NAV. The Fund has an effective shelf registration authorizing an additional $242 million of common or preferred shares.

On September 9, 2024, the Fund distributed one transferable right for each of the 75,981,964 common shares outstanding on that date. Five rights were required to purchase one additional common share at the subscription price of $5.00 per share.

On October 24, 2024, the Fund issued 11,585,072 common shares receiving net proceeds of $57,925,360, after the deduction of estimated offering expenses of $475,000. The NAV of the Fund increased by $0.25 per share on the day the additional shares were issued due to the additional shares being issued above NAV.

8. Industry Concentration. Because the Fund primarily invests in common stocks and other securities of foreign and domestic companies in the utility industry, its portfolio may be subject to greater risk and market fluctuations than a portfolio of securities representing a broad range of investments.

9. Transactions in Securities of Affiliated Issuers. The Gabelli U.S. Treasury Money Market Fund is an affiliated security as it is also advised by the Fund's Adviser. A summary of the Fund's transactions in the securities of these issuers during the six months ended June 30, 2026 is set forth below:

	Market Value at December 31, 2025	Purchases	Sales Proceeds	Realized Loss	Change In Unrealized Depreciation	Market Value at June 30, 2026	Shares at June 30, 2026	Dividend Income	Percent Owned of Shares
Gabelli U.S. Treasury Money Market Fund, Cl. I, 3.600% . .	$ 2,402,830	$ 42,646	$ —	$ —	$ —	$ 2,445,476	2,445,476	$ 45,569	0.04%

10. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

11. Segment Reporting. The Fund's Principal Executive Officer and Principal Financial Officer act as the Fund's chief operating decision maker (CODM), as defined in ASC Topic 280, assessing performance and making decisions about resource allocation. The CODM has determined that the Fund has a single operating segment based on the fact that the CODM monitors the operating results of the Fund as a whole and the Fund's long-term strategic asset allocation is guided by the Fund's investment objective and principal investment strategies, and executed by the Fund's portfolio management team, comprised of investment professionals employed by the Adviser. The financial information provided to and reviewed by the CODM is consistent with that presented in the Fund's Schedule of Investments, Statements of Operations and Changes in Net Assets and Financial Highlights.

12. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

Certifications

The Fund's Chief Executive Officer has certified to the New York Stock Exchange (NYSE) that, as of May 19, 2026, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund reports to the SEC on Form N-CSR which contains certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's disclosure in such reports and that are required by Rule 30a-2(a) under the 1940 Act.

Shareholder Meeting – May 11, 2026 – Final Results

The Fund's Annual Meeting of Shareholders was held on May 11, 2026. At that meeting, common and preferred shareholders, voting together as a single class, re-elected Frank J. Fahrenkopf, Jr., Robert J. Morrissey, and Salvatore J. Zizza as Trustees of the Fund, with a total of 59,314,070 votes, 59,396,038 votes, and 59,272,133 votes cast in favor of these Trustees, and a total of 2,014,567 votes, 1,932,598 votes, and 2,056,503 votes withheld for these Trustees, respectively. In addition, preferred shareholders, voting as a separate class, re-elected John Birch as a Trustee of the Fund, with 1,213,473 votes cast in favor of this Trustee and 77,937 votes withheld for this Trustee.

Mario J. Gabelli, Elizabeth C. Bogan, James P. Conn, Vincent D. Enright, Michael J. Ferrantino, Leslie F. Foley, John D. Gabelli and Michael J. Melarkey continue to serve in their capacities as Trustees of the Fund.

We thank you for your participation and appreciate your continued support.

Portfolio Management Team Biographies

Mario J. Gabelli, CFA, is Chairman, Chief Executive Officer, and Chief Investment Officer - Value Portfolios of GAMCO Investors, Inc. that he founded in 1977, and Chief Investment Officer - Value Portfolios of Gabelli Funds, LLC and GAMCO Asset Management, Inc. He is also Executive Chairman of Associated Capital Group, Inc. Mr. Gabelli is a summa cum laude graduate of Fordham University and holds an MBA degree from Columbia Business School and Honorary Doctorates from Fordham University and Roger Williams University.

Timothy M. Winter, CFA, joined Gabelli in 2009 and covers the utility industry. He has over 25 years of experience as an equity research analyst covering the industry. Currently, he continues to specialize in the utility industry and also serves as a portfolio manager of Gabelli Funds, LLC. Mr. Winter received his BA in Economics from Rollins College and an MBA degree in Finance from the University of Notre Dame.

Justin Bergner, CFA, is a Vice President at Gabelli and a portfolio manager for Gabelli Funds LLC. Justin rejoined Gabelli in 2013 as a research analyst covering Diversified Industrials, Home Improvement, and Transport companies. He began his investment career at Gabelli in 2005 as a metals and mining analyst, and subsequently spent five years at Axiom International Investors as a senior analyst focused on industrial and healthcare stocks. Prior to business school, Mr. Bergner worked in management consulting at both Bain & Company and Dean & Company. Mr. Bergner graduated cum laude from Yale University with a BA in Economics and Mathematics and received an MBA in Finance and Accounting from the Wharton School at the University of Pennsylvania.

Simon T. Wong, CFA, covers the energy sector. He began his investment career at Gabelli in 1997 as a specialty chemical analyst and subsequently became a generalist at Olstein Capital Management, Lucid Asset Management, and Boyar Asset Management. Simon graduated from the University of California, Los Angeles with a BA in Economics and received an MBA in Finance from Columbia Business School.

Robert D. Leininger, CFA, joined GAMCO Investors, Inc. in 1993 as an equity analyst. Subsequently, he was a partner and portfolio manager at Rorer Asset Management before rejoining GAMCO in 2010 where he currently serves as a portfolio manager of Gabelli Funds, LLC. Mr. Leininger is a magna cum laude graduate of Amherst College with a degree in Economics and holds an MBA degree from the Wharton School at the University of Pennsylvania.

The Net Asset Value per share appears in the Publicly Traded Funds column, under the heading "Specialized Equity Funds," in Monday's The Wall Street Journal. It is also listed in Barron's Mutual Funds/Closed End Funds section under the heading "General Equity Funds."

The Net Asset Value per share may be obtained each day by calling (914) 921-5070 or visiting www.gabelli.com.

The NASDAQ symbol for the Net Asset Value is "XGUTX."

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended, that the Fund may from time to time purchase its common shares in the open market when the Fund's shares are trading at a discount of 7.5% or more from the net asset value of the shares. The Fund may also from time to time purchase its preferred shares in the open market when the preferred shares are trading at a discount to the liquidation value.
